Gestion des risques et création de valeur Tullio TANZI, Pierre d'ARGENLIEU, Pierre-Noël Favennec, 2013-10-02

Le développement de nouveaux instruments financiers et la prise de conscience par les agents économiques des enjeux sont les deux évolutions majeures qui ont marqué la gestion des risques d'entreprise ces dernières années. Un double mouvement de financiarisation se produit dans cet environnement : celui des modes de transfert des risques et celui de la gouvernance. Dans ce contexte, le management des risques devient une source de création de valeur pour l'entreprise. Vritable panorama de ces évolutions et de leurs impacts sur la gestion des organisations, cet ouvrage présente successivement l'historique du management des risques d'entreprise, les processus mis en œuvre, les outils utilisés et enfin le rôle des principales fonctions de l'entreprise et leur contribution à la création de valeur par la gestion des risques.
