Max And Shocks To Guide Dogs:

In Sickness and in Health Ben Mattlin, 2018-01-30 A frank humorous exploration of interabled dating love and marriage Ben Mattlin's wife ML recalls falling in love with his confidence and sheer determination On one of their earliest dates he persuaded her to ride on his lap in his wheelchair on their way home from an Elvis Costello concert Thirty years later they still travel like this from time to time undaunted by the curious stares following them down the street But In Sickness and in Health is more than an inspiring story of how a man born with spinal muscular atrophy a congenital and incurable neuromuscular condition survived childhood graduated from Harvard married an able bodied woman built a family with two daughters and a cat and a turtle established a successful career in journalism and lived happily ever after As Mattlin considers the many times his relationship has been met with surprise or speculation by outsiders those who consider his wife a saint or him just plain lucky for finding love he issues a challenge to readers why should the idea of an interabled couple be regarded as either tragic or noble Through conversations with more than a dozen other couples of varying abilities ethnic backgrounds and orientations Mattlin sets out to understand whether these pairings are as unusual as onlookers seem to think Reflecting on his own experience he wonders How do people balance the stresses of personal care help with the thrill of romance Is it possible that the very things that appear to be insurmountable obstacles to a successful relationship the financial burdens the physical differences the added element of an especially uncertain future could be the building blocks of an enviable level of intimacy and communication that other couples could only dream of We meet Shane Burcaw a twenty three year old writer who offers a glimpse of his first forays into dating with a disability There's Rachelle Friedman the paralyzed bride as the media refers to her and her husband discussing the joys and challenges of a new marriage and a growing family And Christina Crosby and her partner Janet Jakobsen reflect on how Crosby's disabling accident called for them to renegotiate their roles and expectations in their long term relationship What emerges is a candid glimpse into the challenges and joys of interabled love from the first blush of sexual awakening to commitment and marriage and through to widowhood

Dog Control and Welfare Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee, 2013-02-15 DEFRA's belated proposals to tackle irresponsible dog ownership are too limited Since 2007 dogs have killed seven people including five children in private homes The NHS also spends over 3 million annually treating dog attack injuries Some eight assistance dogs a month and thousands of livestock annually are attacked by dogs The Home Office approach to tackling antisocial behaviour is too simplistic and fails to reflect the impact that poor breeding and training by irresponsible owners can have on a dog's behaviour New rules should give enforcement officers more effective powers including Dog Control Notices to prevent dog related antisocial behaviour Local authorities need to devote more resources to the effective management of stray dogs MPs call for changes in the legislation to give powers to extend the banned list to include other dogs with particularly aggressive characteristics At the same time those tasked to enforce legislation should have the discretion to neuter rather than destroy a banned animal where a particular dog poses no threat The Advisory Council on Welfare Issues of Dog Breeding should be given a formal regulatory role to enforce standards Any breeder producing more than two litters per year should be licensed and subject to welfare checks The Kennel Club should stop registering puppies from breeders not compliant with its own Assured Breeder Scheme It should also commission an independent annual review of Breed Standards led by vets to eliminate health problems linked to breeding for exaggerated characteristics Lastly MPs call on websites advertising pets to develop a voluntary Code of Practice
