Secrets of the iPod Christopher Breen,2003 Updated to cover all of the iPod s new features including new support for Windows users iTunes 3 improved contact management tools and iCal a new calendar application for the Mac This is the perfect companion for Apple s wildly popular iPod which according to Wall Street Journal columnist Walter Mossberg just gets better and better No other digital music player comes close

MacAddict Guide to Living the iLife Shelly Brisbin,2005 Every new or relatively new Mac comes loaded with powerful digital lifestyle applications collectively known as iLife Problem is Apple provides little if any documentation Sure these iApps are easy to use but each of them also has tons of undocumented features and shortcuts

We'll visually explain each app's basic features then go beyond the basics to show hidden features and time saving shortcuts. In addition each section that focuses on the creative iApps will include off the wall and entertaining yet useful projects that'll show readers how to have fun with the easy but powerful software that came with their Macs. Finally we'll take a look inside the Utilities folder to explore all its geeky goodness and teach the reader which of these apps can help them and which are better left alone and which one is the gateway to a host of old school games that we bet you didn't even know were there.

Apps covered in this one of a kind book include:
