Italian Textbooks For Middle School:

Teaching a Dark Chapter Daniela R. P. Weiner, 2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them **Italian Books and Periodicals** ,1987 *The Booklist* ,1922 *Booklist* ,1922

Female Cultural Production in Modern Italy Sharon Hecker, Catherine Ramsey-Portolano, 2023-04-13 This book is the first critical interdisciplinary examination in English of Italian women s contributions to intellectual artistic and cultural production in modern Italy Examining commonalities and diversities from the country s Unification to today the volume provides insight into the challenges that Italian women engaged in cultural production have faced and the strategies they have deployed in order to achieve their objectives The essays address a range of issues from women s self identification and public ownership of their professional roles as laborers in the intellectual and cultural realm to questions about motherhood and financial remuneration to the role of creative foreign women in Italy Through critical analysis and direct testimony from new and typically marginalized voices including an Arab Italian writer an Italian Dominican filmmaker and a transgender activist new forms of ongoing struggle emerge that redefine the culturally diverse landscape of female intellectual and creative production in Italy today

The volume rethinks a solely national Made in Italy reading of the subject of female intellectual labor demonstrating instead the wide network of influences and relationships that have existed for Italian women in their professional aspirations **History Education at the Edge of the Nation** Piero S. Colla, Andrea Di Michele, 2023-06-27 This edited volume explores the evolution of history education from a transnational perspective focusing on border regions in Europe that are considered on the periphery of the Nation State By introducing this concept and taking into consideration the dynamics of decentralization and the development of minorities teaching practices and

narratives the book sheds light on new challenges for history education policy and curriculum design Chapters take a comparative approach dissecting and analyzing specific case studies from school systems in France Germany Italy the UK and Scandinavian countries In doing so the editors and their authors weave a systematic account of the impact of local autonomy on educational culture on the civic remit of schools and on the narratives embodied by history school canons
