The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-29 In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America there has been surprisingly little research on the impact of textbook content on students The contributors of this volume and its partner *The New Politics of the Textbook Problematizing the Portrayal of Marginalized Groups in Textbooks* guide educators school administrators academics and other concerned citizens to unpack the political social and cultural influences inherent in the textbooks of core content areas such as math science English and social science They urge readers to reconsider the role textbooks play in the creation of students political social and moral development and in perpetuating asymmetrical social and economic relationships where social actors are bestowed unearned privileges and entitlements based upon their race gender sexuality class religion and linguistic background Finally they suggest ways to resist the hegemony of those texts through critical analyses critical questioning and critical pedagogies

The Bloomsbury Handbook of Reading Perspectives and Practices Bethan Marshall, Jackie Manuel, Donna L. Pasternak, Jennifer Rowsell, 2020-10-15 Shortlisted for the UK Literacy Association s Academic Book Award 2021 *The Bloomsbury Handbook of Reading Perspectives and Practices* focuses on the experiences of reading from a young age to maturity and the different ways reading is encountered in other words the processes involved as well as the outcomes The international group of experts within both teaching and academia focuses on reading in school how is it taught What is taught How is it assessed Controversial issues are explored the acquisition of phonics teaching the canon including or ignoring digital texts the advent of standards based tests The contributions also consider people s biographies of reading their memories of reading in school and their current views on literature Together this well edited volume provides a more complete view of reading than is currently on offer exploring all aspects of what it means to be literate and how we define being literate

The Role of the Literary Canon in the Teaching of Literature Robert Aston, 2020-05-12 This book investigates the role of the idea of the literary canon in the teaching of literature especially in colleges and secondary schools in the United States Before the term canon was widely used in literary studies which occurred in the second half of 20th century when the canon was first seriously viewed as politically and culturally problematic the idea that some literary texts were more worthy of being studied than others existed since the beginning of the discipline of the teaching of literature in the 1800s The concept of the canon however extends as far back as to Ancient Greece and its meaning has evolved over time Thus this book charts the changing meaning of the idea of the literary canon examining its influence specifically in the teaching of literature from the beginning of the field to the 21st century To explain

how the literary canon and the teaching of literature have changed over time and continue to change this book constructs a theory of canon formation based on the ideas of Michel Foucault and the assemblage theory of Manuel DeLanda illustrating that the literary canon while frequently contested is integral to the teaching of literature yet changes as the teaching of literature changes
