Scott,David Broom,2022-07-29 Exercise referral describes the process of consultation planning and instructing physical  
activity programmes and applying appropriate behaviour change strategies for clients presenting a range of low to medium  
risk medical conditions Exercise Management for Referred Medical Conditions is the first book to integrate exercise  
prescription with the development of healthy behaviours and the promotion of physical activity and well being and provides  
students with an evidence based applied guide to becoming effective exercise referral practitioners The book draws upon the  
latest research and recommends best practices for creating referral pathways providing exercise programmes and engaging  
clients in health lifestyles Covering the pathology medical management role of exercise and recommendations for  
programming in each case it discusses a range of conditions including Obesity and type I and II diabetes Hypertension and  
dyslipidaemia Asthma Low back pain osteoarthritis and joint replacement rheumatoid arthritis and osteoporosis Depression  
anxiety and stress disorders Consistently organised and laden with pedagogical features including learning objectives key  
terms case studies future developments and chapter summaries no other book offers such a clear holistic model for exercise  
referral This is a vital resource for any student undertaking vocational courses in exercise referral and an important  
reference for exercise scientists physical therapists fitness professionals or local policy makers interested in the use of
