G. Turner, 2016-05-26 Each generation of lawyers in common law systems faces an important question what is the nature of equity as developed in English law and inherited by other common law jurisdictions While some traditional explanations of equity remain useful including the understanding of equity as a system that qualifies the legal rights people ordinarily have under judge made law and under legislation other common explanations are unhelpful or misleading This volume considers a distinct and little noticed view of equity By examining the ways in which courts of equity have addressed a range of practical problems regarding the administration of deliberately created schemes for the management of others affairs modern equity can be seen to have a strongly facilitative character The extent and limits on this characterisation of equity are explored in chapters covering equity s attitude to administration in various public and private settings in common law systems **Spacewear** Barbara Brownie, 2019-01-10 Today we are living in the New Space Age where mass commercial space travel is almost within our grasp This otherworldly possibility has opened up new cultural images of space both real and fictional and has caused fashion design and spacesuit engineering to intersect in new exciting ways Spacewear traverses this uncharted territory by exploring the changing imagination of space in fashion and fashion in space from the first Space Age to the 21st century Exploring how space travel has stylistically and technologically framed fashion design on earth and how we need to revisit established design practices for the weightless environment Spacewear connects the catwalk and the space station This book draws together speculative fantasies in sci fi films such as Star Trek and 2001 A Space Odyssey with the engineered spacesuits Biosuit and the NASA Z 2 and with catwalk interpretations by the likes of Alexander McQueen Hussein Chalayan Andr Courr ges and Iris van Herpen While the development of commercial space agencies has led to new concerns for style in garments for outer space that re think fundamental design principles such as drape high fashion has experimented with new possibilities for weightlessness that extend far beyond the 1960s vision of Space Age metallic fabrics and helmet style headwear Brownie takes the reader on a fascinating journey from fantasy to function and to form deepening our understanding of this new category of fashion that is prompting new approaches to garment design and construction both on earth and in outer space **Gender and the Judiciary in Africa** Gretchen Bauer, Josephine Dawuni, 2015-10-30 Between 2000 and 2015 women ascended to the top of judiciaries across Africa most notably as chief justices of supreme courts in common law countries like Ghana Nigeria Sierra Leone Gambia Malawi Lesotho and Zambia but also as presidents of constitutional courts in civil law countries such as Benin Burundi Gabon Niger and Senegal Most of these appointments was a first in terms of the gender of the chief justice At the same time women are being appointed in record numbers as
