Centennial Celebration  
of  
Hardinge Bridge  
1915-2015

Development of an efficient transportation infrastructure is one of the major challenges which Bangladesh faces. The geological formation of the country, a low lying delta formed by recent deposits on the flood plains of the Ganges-Brahmaputra-Meghna river system, with hundreds of tributaries, distributaries and water bodies, pose a big challenge to the Civil Engineers in construction and maintenance of an uninterrupted country wide road-rail network. Furthermore, flyovers, viaducts and overpasses are also being constructed in major cities. The geopolitical boundaries also place Bangladesh in a strategic location in between South Asia and South East Asia, thereby providing a major hub for the Asian Land Transport Infrastructure. It is in this context that this conference, the third one in the series, has been scheduled. This time it coincides with the Centennial Celebration of the Hardinge Bridge (1915-2015), one of the landmark railway bridges in the whole region. Special attention is, therefore, being given to strengthening, repair, renovation and maintenance of bridges and building a resilient transport infrastructure in the Asian region. We invite experts in the field from round the world to contribute papers in the Conference and participate in the discussions.
