**Towards a holistic approach to support learners at risk of interrupted development** Macalane J. Malindi, Johnnie Hay, Thabo Makhalemele, 2024-02-23 The COVID 19 pandemic and the restrictions that came with it led to unprecedented disruptions in learner development and put them at risk of poor developmental outcomes. It is thus important that the extent of the disruption on their development and the support needs of learners be investigated. Researching the impact of the disruption should focus on holistic development. In this book the authors use multiple research approaches and methods of gathering data in their respective fields to examine the impact of the disruption and determine the support needs of learners. Data gathered through the different methods are processed and findings are presented. The findings have implications for both practice and future research in the fields of inclusive education, learner support, educational psychology, movement education, Life Orientation and curriculum development.

**Leave no child behind** UNESCO, 2022-06-20 To leave no child behind UNESCO developed the first global report of this scope on boys' disengagement from education, bringing together qualitative and quantitative evidence from over 140 countries. This report provides an overview on the global situation on boys' disengagement from and disadvantage in education. It identifies factors influencing boys' participation, progression and learning outcomes in education. It also analyses responses by governments and partners and examines promising policies and programmes. Finally, it includes recommendations on how to engage boys with education and address disadvantage. While girls continue to face severe disadvantages and inequalities in education, the report shows that boys in many countries are at greater risk than girls of repeating grades, failing to complete different education levels and having poorer learning outcomes in school. No less than 132 million boys of primary and secondary school age are out of school. They urgently require support. As this report shows, supporting boys does not mean that girls lose out and vice versa. Addressing boys' disengagement not only benefits boys' learning, employment opportunities, income and well-being; it is also highly beneficial for achieving gender equality and desirable economic, social and health outcomes.
