Early History of the Mughal Empire

How did the Mughal Empire begin?

Starting in the 600s, India went through a long, unsettled period. Nomadic forces created India, invaded the country and created many small kingdoms. In the 700s, Muslims arrived in the region. This began a long history of fighting with the Muslims who had lived in India for centuries.

After about 500 years, a group of Muslim Turks conquered a region around the city of Delhi. They

set up a new empire there. They treated the Hindus in their area as conquered peoples. Their rule was brought to an end in 1505.

A little over a hundred years later, a new leader named **Babur** led an army and began to win large parts of India. He had many talents. He was a lover of poetry and gardens. He was also an excellent general. His empire was called the **Mughal Empire** because the small but families were related to the Mongols.
