

**You're looking at the future  
of color television.**

**And a very untroubled future it is.**

**Our 5 plug-in  
modular circuits.**

You're looking at the brand-new JCPenney solid-state Color TV. And that's just about all you've got to do with it, too; relax, and look at it. Because we built in every new idea we could think of to make your color viewing less trouble. We built in 100% solid-state modular circuitry which is designed to keep repairs to a minimum.

Then there's our new improved Chroma-Loc,\* a sophisticated color-control system that helps give you good balanced color and tint at all times. The Contrast Control, Fine Tuning and Color Purifier circuits are all automatic, too.

Our Chroma-Brite® black matrix picture tube gives clear, stunningly brilliant color in both our 17" and 19" models (screens measured diagonally).

**Our Chroma-Loc corrects a sour puss  
at the push of a button.\***

We even made it easier on you when you turn on the set. You get sound and picture in seconds. We call it our Quick-Pic fast warm-up.

Now what good is all this if something should go wrong, right? Well, we designed our 5 modular circuit panels so they plug in and out of the chassis in minutes. And that makes most repairs easier.

With all this, you'd expect the price to give you trouble. But not at JCPenney. Shouldn't there be a JCPenney solid-state Color TV in your future?

Available at most large JCPenney stores. Prices slightly higher in Alaska, Hawaii and Puerto Rico.

\*Simulated color pictures.

**419<sup>95</sup>** 19" portable  
**379<sup>95</sup>** 17" portable

Screen size measured diagonally.

**JCPenney**  
We know what you're looking for.
