

JCT STANDARD BUILDING CONTRACT 2016 CHANGES

On 31 October 2016 the JCT published a new edition of its Standard Building Contract with the changes listed below. The update including new definitions and The Construction Design and Management Regulations (CDM) are now incorporated into the construction contract.

1. PAYMENT PROVISIONS (SIMPLIFIED):

- Combined Payment Notice and Pay Less Notice and final dates for payment.
- Interim valuation dates which apply throughout the construction period and the rectification period payments now will be every month rather than every two months.
- 14-day period applies to both the period of time between the due date and the final date for payment for interim and final payments.
- New procedure for prompt assessment within 28 days by the employer of loss and expense claims and 14 days from each subsequent monthly update from the Contractor.
- Fluctuations Options A, B and C were made more flexible and are set out and selected in the Contract Particulars. Options B and C are no longer attached to the contract but are still available to use from the JCT website and the contract now allows for an alternative bespoke cost adjustment formula.

2. EXISTING STRUCTURE AND INSURANCE

A new insurance Option C available to permit alternative solutions to the problems and allows the parties to set out their own bespoke insurance arrangements.

It is also optional to include an optional product liability insurance instead of professional indemnity insurance (the required type is to be specified in the Subcontract Particulars).

3. INTERIM VALUATION DATE (IVD)

Introduced in all editions to permit an option to specify it prior to the commencement of work on site (must be specified in the Contract Particulars regardless of A or B option applies).

The due date for payment is 7 days after the IVD, or if the contractor's interim payment application is submitted later than the IVD, 7 days after the employer's receipt of the interim payment application.

Understanding JCT Standard Building Contracts David Chappell, 2013-02-28 This ninth edition of David Chappell's bestselling guide has been revised to take into account changes made in 2011 to payment provisions and elsewhere. This remains the most concise guide available to the most commonly used JCT building contracts: Standard Building Contract with quantities 2011, SBC11; Intermediate Building Contract 2011, IC11; Intermediate Building Contract with contractor's design 2011, ICD11; Minor Works Building Contract 2011, MW11; Minor Works Building Contract with contractor's design 2011, MWD11; and Design and Build Contract 2011, DB11. Chappell avoids legal jargon but writes with authority and precision. Architects, quantity surveyors, contractors and students of these professions will find this a practical and affordable reference tool arranged by topic. *Understanding JCT Standard Building Contracts 8E* David Chappell, 2007-02-12 This eighth edition of David Chappell's bestselling guide to the most popular form of construction contracts has been completely revised to take into account the new contracts which have been introduced since May 2005. These include JCT Standard Building Contract SBC, JCT Intermediate Building Contract IC and with contractor's design ICD, JCT Minor Works Building Contract MW and with contractor's design MWD, and JCT Design and Build Contract DB which have replaced the old JCT 98 IFC, 98 MW, 98 and WCD 98 contracts. Each contract has been restructured and all the clause numbers have changed together with some terminology. Virtually all the clauses have been reworded and updated in line with recent case law. Chappell avoids legal jargon but writes with authority and precision. Architects, quantity surveyors, contractors and students of these professions will find this a straightforward and practical reference tool arranged by topic. **Jct** Sweet & Maxwell, Limited, 2016-12-31

Guide to JCT Standard Building Contract 2016 Sarah Lupton, 2019-06-27 Guide to JCT Standard Building Contract 2016 is a practical guide to the operation and administration of JCT's SBC 2016 suite of building contracts: SBC Q, SBC AQ and SBC XQ. All of the contracts' provisions, procedures and conditions are organised and explained by subject, clearly distinguishing the different obligations due to various parties and the contractual issues arising during the course of a job, all backed up by the latest legislation and case law. *The JCT Standard Building Contract 2011* David Chappell, 2014-01-08 Books about construction contracts tend to be dense and wordy but what most architects, quantity surveyors, project managers, builders and employers are looking for is an easily navigable, simple guide to using a contract written in plain language. The JCT Standard Building Contract 2011 is an uncomplicated book about a complex and commonly used contract. It straightforwardly and concisely sets out exactly what the contract requires in various circumstances as far as possible without legal jargon and without assuming any particular legal or contractual expertise from the reader. It explains, often from first principles, exactly what is meant by a contract and why certain clauses such as extension of time clauses or liquidated damages clauses are present and more importantly what they mean. The book is divided into many chapters, each with many sub-headings to make it easy to read and to help readers to find relevant explanations quickly. Tables and flowcharts are used

to ensure clarity and most chapters include a section dealing with common problems. Covers the recently issued JCT Standard Building Contract 2011. Straightforward, concise and as far as possible free of legal jargon. Sets out exactly what the contract requires in various circumstances. Includes many tables and flowcharts to ensure clarity. **Jct** Sweet & Maxwell, Limited, 2016-10-26. *The JCT 05 Standard Building Sub-Contract* Peter Barnes, 2008-04-15. Although the majority of construction work these days is carried out by sub-contractors, there are surprisingly few books dealing with building sub-contracts and the related law. This book provides a much welcomed guide to the new 2005 JCT Standard Building Sub-Contract SBCSub and SBCSub D which is likely to be the regular sub-contract form used by contractors when letting works under the radically revised 2005 JCT Standard Building Contract. Peter Barnes, who has over 30 years' experience of contractor-sub-contractor relationships, provides a clause-by-clause commentary on the sub-contract, highlighting practical issues and considering relevant case law. The book will be of interest not only to sub-contractors and main contractors but also to other construction professionals and lawyers who need an understanding of the contractual relationship and allocation of risk between contractors and sub-contractors. The Author Peter Barnes MSc Construction Law and Arbitration DipICarb FCIARB FCIARB MRICS is a Chartered Arbitrator, a registered adjudicator and a CIARB trained mediator. He has been actively involved in the construction industry for almost 30 years and has a wide experience of many types of construction work, including building both new build and refurbishment, civil engineering and mechanical and electrical installations. He spent many years working for main contractors, undertaking both surveying and management roles, and during that time he has administered and settled a multitude of sub-contract accounts on a variety of different contracts. His experience with sub-contracts covers both simple and complex contracts and has involved detailed examination of contractual entitlements. His practical background has led to an in-depth understanding of the allocation of risks in contractor-sub-contractor relationships. Since becoming a consultant, Peter Barnes has represented many parties in both adjudications and arbitrations, has acted as an expert witness in respect of both liability and quantum and has been appointed as adjudicator by both the Chartered Institute of Arbitrators and the Construction Industry Council. His wide experience base has led to him being appointed to the committees of the Chartered Institute of Building Eastern Branch, the Chartered Institute of Arbitrators East Anglia Branch and the Institution of Civil Engineering Surveyors Anglia and Central Branch. Fellows,2001 Jct ,2016-10-26 *The JCT Design and Build Contract 2005* David Chappell,2008-04-15 The Joint Contracts Tribunal issued a new Design and Build Form in 2005 a successor to the JCT Standard Form of Building Contract with Contractor s Design It looks substantially different from its predecessor and it is different in structure and often in its wording This major new edition of David Chappell s well regarded book has been substantially revised to take account of the new contract terms and different structure It also considers the standard novation agreements from the CIC and City of London Law Society and more then 70 additional cases It discusses areas where problems frequently arise the allocation of design responsibility discrepancies the role of the employer s agent payment provisions the approval of drawings

Contract Documentation for Contractors Vincent Powell-Smith,John H. M. Sims,Christopher Dancaster,2008-04-30 The JCT standard forms of building contract require a thorough understanding of their procedural requirements as well as their legal implications They require both the contractor and the architect on behalf of the employer to send a wide range of notices and letters if each party is to protect its legitimate interests The main contract forms are also supported by complex sub contract documentation Therefore it is not surprising that when this book of specimen letters notices and forms was first published it was widely welcomed by the construction industry The book provides examples of documentation likely to be required for a contract under the following JCT forms the Standard Form of Building Contract the Intermediate Form of Building Contract the Agreement for Minor Building Works the Standard Form of Building Contract With Contractor s Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants Construction and Regeneration Act 1996 and in particular the new payment and adjudication provisions For the first time it features documentation for use with the JCT design and build form Jct Sweet & Maxwell,
