Nickum, David B.

Brooks, Anthony Turton, Surina Esterhuyse, 2018-10-15 The impact of mining is too big to ignore in a world of oversubscribed water This is true of conventional mining as much as or even more than hydraulic fracturing fracking The legacy issues of such mining on water have not been fully appreciated especially the irretrievable effects mining has had on communities and ecosystems around the world through its impact on water Yet this is not an us or them problem the wealth influence and technical knowledge of mining interests can and must be part of the solution All of the contributions to this volume either consider the deficiencies of existing governance structures and the need for better ones or explore the use of new techniques to identify and evaluate social and environmental impacts The chapters in this book were originally published in the journal *Water International*      Citizen and Pariah Vanya Gastrow, 2022-03-01 *Citizen and Pariah* explores the fragility of law pluralism and democracy in South Africa by investigating Somali informal shopkeepers experiences of crime justice and regulation in the country Through a narrative account of their local experiences the book sheds light on the legal and political predicaments they face      **The Rough Guide to South Africa, Lesotho & Swaziland** Rough Guides, 2015-02-02

Newman, Ariane De Lannoy, 2014-04-22 Twenty years after the end of apartheid a new generation is building a multiracial democracy in South Africa but remains mired in economic inequality and political conflict The death of Nelson Mandela in 2013 arrived just short of the twentieth anniversary of South Africa's first free election reminding the world of the promise he represented as the nation's first Black

president Despite significant progress since the early days of this new democracy frustration is growing as inequalities that once divided the races now grow within them as well In *After Freedom* award winning sociologist Katherine S Newman and South African expert Ariane De Lannoy bring alive the voices of the freedom generation who came of age after the end of apartheid Through the stories of seven ordinary individuals who will inherit the richest and yet most unequal country in Africa Newman and De Lannoy explore how young South Africans whether Black White mixed race or immigrant confront the lingering consequences of racial oppression These intimate portraits illuminate the erosion of old loyalties the eruption of class divides and the heated debate over policies designed to redress the evils of apartheid Even so the freedom generation remains committed to a united South Africa and is struggling to find its way toward that vision *Africa Insight* ,2005
