### Linde Hydraulic Control (LHC)

#### Digital electro-hydraulic controller

Instead of a control unit, an integrated module has taken the place of the control unit. Instead of a hydraulic controller, a computer electronic controller is used. It has a very powerful microcontroller system, all control functions for the drive unit and the working hydraulics (2).

#### Adaptation to various trucks

The electronic control unit is capable of controlling trucks from a variety of series and with different drive systems. To use different truck parameters and sensors, each truck model has a coding that uniquely identifies the truck.

#### Troubleshooting

The processor of the electronic control unit analyzes analogue and digital signals. The processor recognizes digital messages and system errors, and displays an error message on the display module on the seat interface. In addition, the control unit activates a variety of functions according to the error's highest priority.

- Working light flashes
- Flashing indicator of the internal communication system
- The truck flashes with communication messages and off the target zone
- The truck flashes in the emergency function, the internal communication system activates off
- An error code appears on display

These functions can be activated by switching off the communication system and the target zone. During a fault, the control unit shows whether the error is still present. If the error is no longer present, the truck displays normal operation. If the error persists, the error code appears on the display and one of the messages from the error code list.

#### Changing the controller

##### 4.1.1.1.1.1.1

Problems regarding component damage due to electrostatic discharge. Electrostatic damage is warning messages and codes if the controller is changed.

The controller is equipped with a "fingerprint" which is attached to the truck's main control system. Communication data must be left out. The system unit number and the software version of the controller can be read out via the seat interface.

##### 4.1.1.1.1.1.1

If the controller is replaced, the personal work unit number must be identified and the data adapted to the code list. All necessary information is available on the code list.

# Linde H 120 Forklift Service Manual

**Lingjun Ying**

## **Linde H 120 Forklift Service Manual:**

If you ally dependence such a referred **Linde H 120 Forklift Service Manual** book that will provide you worth, acquire the agreed best seller from us currently from several preferred authors. If you desire to witty books, lots of novels, tale, jokes, and more fictions collections are after that launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections Linde H 120 Forklift Service Manual that we will extremely offer. It is not going on for the costs. Its virtually what you compulsion currently. This Linde H 120 Forklift Service Manual, as one of the most energetic sellers here will totally be in the course of the best options to review.
