Newman,2010-10-19 This comprehensive detailed account explores crime and punishment throughout the world through the eyes of leading experts local authors and

scholars and government officials It is a subject as old as civil society yet one that still fuels debate Now the many and varied aspects of that subject are brought together in the four volume Crime and Punishment around the World This unprecedented work provides descriptions of crimes and the justice systems that define and punish them in more than 200 nations principalities and dependencies Each chapter examines the historical political and cultural background as well as the basic organization of the subject state s legal and criminal justice system It also reports on the types and levels of crime the processes leading to the finding of guilt the rights of the accused alternatives to going to trial how suspects are prosecuted for their crimes and the techniques and conditions of typical punishments employed Comprising a study that is at once extraordinarily comprehensive and minutely detailed the essays collected here showcase the variety and the universality of crime and punishment the world over

Naturalized Reptiles and Amphibians of the World Christopher Lever,2003 This book describes how the various alien reptiles and amphibians now living in the wild throughout the world were first introduced how they subsequently became naturalized their present distribution and status in those countries to which they were introduced and their ecological and socio economic impact if any on the native biota and local economies Many species have had a more or less neutral impact being neither beneficial nor harmful However several have had a positive ecological or socio economic impact while some such as the cane toad have had an extremely destructive effect The criteria for inclusion of a species are that it should have been imported from its natural range to a new country by human agency either accidentally or deliberately and that it should currently be established in the wild in self maintaining and self perpetuating populations unsupported by and independent of mankind
