

Conclusion

- The quality assurance processes presented above were conducted based on Umalusi criteria. Umalusi uses criteria that are subjected to constant review and refinement, to ensure that they are in line with current trends in assessment and examinations
- From the findings of the quality assurance processes many good practices were evident but on the other hand, there are still many challenges that need to be addressed
- Significant interventions are required to improve the curriculum, teaching and learning, exposure of learners to a compulsory practical component and assessment for the NATED programmes to make it a meaningful qualification
