National Service And Volunteerism Achieving Impact In Our Communities:

National Service and Volunteerism Thomas A. Bryer, 2014-12-11 National service and volunteerism enjoy a rich history in the United States and an emergent future in other parts of the world. However, there remains relatively scant evidence of overall impact of national service programs and volunteer effectiveness. This condition continues to threaten national service and volunteer programs with the risk of defunding and/or the risk of not investing sufficiently from the start. This book brings together a selection of diverse chapters written by a combination of academicians, students, and practitioners from three countries and across multiple states in the United States. Each chapter approaches its topic uniquely but links with all others in identifying the impacts of service and volunteerism for volunteers, for beneficiaries of service, for the institution of volunteering, and/or for whole communities. The book is divided into five sections: 1. developing volunteer initiatives to achieve impact; 2. impact for and by youth volunteers; 3. impact in social or policy areas, specifically economy and financial success, education, and emergency response; 4. international perspectives with focus on Chile, Venezuela, the United Kingdom, and the post-communist states of Lithuania and Romania; and 5. conclusion with summary and suggestions for future research and practice.

Poor Participation Thomas A. Bryer, Sofia Prysmakova-Rivera, 2018-02-19 This book argues that active citizenship and poverty are inextricably linked A common sentiment in discussions of poverty and social policy is that decisions made about those living in poverty or near poverty are illegitimate inadvisable and non responsive to the needs and interests of the poor if the poor themselves are not involved in the decision making process Inside this intuitively appealing idea however are a range of potential contradictions and conflicts These conflicts are at the nexus between active citizenship and technical expertise between promotion of stability in governance and empowerment of people between empowerment that is genuine and sustainable and empowerment that is artificial and between a war on poverty that is built on the ideas of collaborative governance and one that is built on an assumption of rule of the elite The poor have long been consigned to a group of included out citizens They are legally living in a place but they are not afforded the same courtesies entrusted with the same responsibilities or respected in parallel processes as those citizens of greater means and those who behave in manners that are more consistent with middle class values Poor citizens engaged in the war on poverty of the 1960s started to emerge and force their agenda through adversarial action and social protest This book explores the clear linkages between engaged citizenship and poverty in the United States revealing a war on poverty and impoverished citizenship that continues to develop in the twenty first century
