Hare,1990 Good No Highlights No Markup all pages are intact Slight Shelfwear may have the corners slightly dented may have slight color changes slightly damaged spine **A Catalog of Books Represented by Library of Congress Printed Cards. Supplement: Cards Issued August 1, 1942--December 31, 1947** ,1948 Transactions - The Society of Naval Architects and Marine Engineers Society of Naval Architects and Marine Engineers (U.S.),1988 List of members in vols 1 24 38 54 57 Marine Navigation 1 : Piloting Richard R. Hobbs,1981 Throughout the

history of warfare at sea navigation has been an important basic determinant of victory Occasionally new members of the fraternity of the sea will look upon navigation as a chore to be tolerated only as long as it takes to find someone else to assume the responsibility In my experience such individuals never make good naval officers Commander Hobbs has succeeded in bringing together the information and practical skills required for that individual who would take the first step down the road toward becoming a competent marine navigator At the outset of this book the author stresses the necessity for safe navigation but there is another basic tenet of sea warfare that this book serves The best weapons system man has ever devised cannot function effectively unless it knows where it is in relation to the real world where it is in relation to the enemy and where the enemy is in relation to the real world Not all defeats can be attributed to this lack of information but no victories have been won by those who did not know where they were
