National Security Division Progress Report United States. Department of Justice. National Security Division,2008

Office of Secretary of Defense. National Security Council. Munitions Board. Research and Development Board. National Security Resources Board. National Security Training Commission. General statements.

Language changes, [Thursday, January 10, 1952 United States. Congress. House. Committee on Appropriations,United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense,1952 *First review of the National Security Strategy 2010* Great Britain: Parliament: Joint Committee on the National Security Strategy,2012-03-08

In this report the Joint Committee on the National Security Strategy finds that the National Security Strategy should address more fundamental questions about the UK s role in the world and its relationship with the USA and other allies The Strategy also needs to be subject to a much wider public debate The Committee says that there is no evidence that the NSS has influenced decisions made since the Strategic Defence and Security Review there should be an overarching strategy a document designed to guide government decision making and crisis management both at home and on the international stage the Government s assertion that there will be no reduction in the UK s influence on the world stage is wholly unrealistic in the medium to long term and the UK needs to plan for a changing and more partnership dependent role in the world The Government s unwillingness to provide the Committee with all the information it has asked for about the National Security Risk Assessment means that it is unable to give Parliament any assurances about its adequacy The report also notes concern that the National Security Council s oversight of security issues is not sufficiently broad and strategic given that it was deeply involved in operations in Libya and failed to discuss the national security implications of the Eurozone crisis or the possibility of Scottish independence Implementation of Title IV, National Security Act of 1947, as Amended United

Security, Leaks and Freedom of the Press Lee C. Bollinger, Geoffrey R. Stone, 2021 Written by a group of the nation's leading constitutional scholars a deeply informed thoughtful and often surprising examination of who has First Amendment rights to disclose to obtain or to publish classified information relating to the national security of the United States One of the most vexing and perennial questions facing any democracy is how to balance the government's legitimate need to conduct its operations especially those related to protecting the national security in secret with the public's right and responsibility to know what its government is doing There is no easy answer to this issue and different nations embrace different solutions In the United States at the constitutional level the answer begins exactly half a century ago with the Supreme Court's landmark 1971 decision in the Pentagon Papers case The final decision though left many important questions unresolved Moreover the issue of leaks and secrecy has cropped up repeatedly since most recently in the Edward Snowden and Chelsea Manning cases In National Security Leaks and Freedom of the Press two of America's leading First Amendment scholars Lee C Bollinger and Geoffrey R Stone have gathered a group of the nation's leading constitutional scholars including John Brennan Eric Holder Cass R Sunstein and Michael Morell among many others to delve into important dimensions of the current system to explain how we should think about them and to offer as many solutions as possible

Terrorism and National Security Reform Jordan Tama, 2011-03-14 Terrorism and National Security Reform demonstrates that blue ribbon commissions can be powerful vehicles for policy change overturning the conventional wisdom that views them only as devices for passing the buck Jordan Tama explains how the unique political credibility of commissions can enable them to forge bipartisan consensus on tough policy challenges He also shows that commissions are most valuable during a crisis when policymakers face pressure to make changes but frequently cannot agree on what to do Using an original database case studies and more than 200 interviews of policymakers and commission participants Tama reveals how commissions have shaped Barack Obama's plan for ending the Iraq War spurred the largest government and intelligence overhauls since 1947 and driven many other elements of U S counterterrorism policy In an era of unrelenting partisanship and extreme polarization this book shows that commissions are increasingly valuable policymaking tools
