Gregory Mankiw, William M. Scarth, 2019-09-18 This special edition of Greg Mankiw's intermediate macroeconomics text takes the same approach that made the parent text a bestseller with coverage shaped to address fiscal policy monetary and exchange rate policy deficit reduction and other critical economic issues from the uniquely Canadian

perspective Like Mankiw's *Macroeconomics* the Canadian edition teaches fundamentals with exceptional clarity by relating theoretical concepts to vital issues and policy debates while illustrating those ideas with examples cases and research from Canada and Canadian researches The new edition is significantly updated with a streamlined version of Greg's hallmark approach and powerful new digital learning options

Diverse Issues in Higher Education, 2006 *Dictionary of Contemporary Chinese Economics* Hong Yinxing, 2025-05-26 This Dictionary provides the theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years It also presents Chinese economics to the world featuring the Belt and Road Initiative and the Chinese theory and Chinese system to be known and shared internationally with a Chinese intellectual foundation It sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development The choice of entries in the Dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated Furthermore the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context

The Reformation in Economics Philip Pilkington, 2016-12-13 This book carves the beginnings of a new path in the arguably weary discipline of economics It combines a variety of perspectives from the history of ideas to epistemology in order to try to understand what has gone so wrong with economics and articulate a coherent way forward This is undertaken through a dual path of deconstruction and reconstruction Mainstream economics is broken down into many of its key component parts and the history of each of these parts is scrutinized closely When the flaws are thoroughly understood the author then begins the task of reconstruction What emerges is not a Grand Unified Theory of Everything but rather a provisional map outlining a new terrain for economists to explore The Reformation in Economics is written in a lively and engaging style that aims less at the formalization of dogma and more at the exploration of ideas This truly groundbreaking work invites readers to rethink their current understanding of economics as a discipline and is particularly relevant for those interested in economic pluralism and alternative economics

Critical Thinking for Strategic Intelligence Katherine Hibbs Pherson, Randolph H. Pherson, 2016-10-14 With this second edition of *Critical Thinking for Strategic Intelligence* Randolph H.
