Journey Of The Pink Dolphins An Amazon Quest Sy Montgomery:

Journey of the Pink Dolphins Sy Montgomery, 2009-01-16 Dolphins
Montgomery, 2001 Montgomery recounts her adventures and observations with the lyricism and penetrating insights of a poet as well as the logic and factual accuracy of a scientist Montgomery travels to the Amazon to study the elusive pink dolphin There is truth in myth Montgomery reveals and magic all around us BOOKLIST Scientists call them *Inia geoffrensis* an ancient species of toothed whale whose origin dates back about 15 million years To the local people of the Amazon pink river dolphins are botos shape shifters that in the guise of human desire can claim your soul and take you to an enchanted underwater world This book weaves ancient myth and modern science into one woman's search for these elusive creatures Over four separate journeys Sy Montgomery follows the dolphins tracing their spiritual historical and environmental past present and future She takes us to that perfect place where the Amazon melts into the forest dolphins swim among treetops and the twenty first century dissolves into the beginning of time

Baiting the Trap Tony Saunders, 2002 Usually where animals are mistreated it's by people who don't know much better Though few in number uniformed RSPCA inspectors are very good at dealing with that side of things But there is another kind of cruelty to animals the kind that brings delight and satisfaction to its depraved enthusiasts It is widespread often highly organised deeply secretive and just about impossible to detect it in the normal way If you picture an RSPCA officer out on official duty in his little van and uniform think again Here is the secret unknown world of the secret operations undertaken by one man whose job it is to go up against the big time crooks and often violent dealers in the criminal fraternity who abuse animals to line their back pockets or worse just for kicks Tony Saunders is more likely to be found posing as a dodgy dealer in rare animals in the back streets of Cairo or covered in mud and debris after a night spent observing illegal badger digs in the British countryside than in an office He has trained with amongst others the SAS and has come to see the nastiest side of human nature counterpointed by his very real but unsentimental love of animals This book is a non fiction thriller following Tony as he creates his own role within the RSPCA and becomes increasingly embroiled in the criminal underworld that preys on animals both in the UK and abroad
