Post Traumatic Stress Disorder and the Law Trevor Hicks, 2003 Nervous shock cases form an area of law which illustrates well the operation of judicial policy It is possible from such cases to trace the changing attitudes of lawyers doctors and of society in general to psychiatric injury over the last century These cases also highlight the changing judicial attitudes to the scope of duty of care and to the whole issue of policy decisions The recognition of nervous shock similarly illustrates the development of medical knowledge in relation to psychiatric injury The recognition of Post traumatic Stress Syndrome PTSD has been a relatively new and controversial phenomenon and this disorder has now been incorporated into the various classifications of mental disorder as a recognisable psychiatric illness This book examines the development of the law and medical knowledge in relation to cases of nervous shock and in particular to PTSD The expansion and subsequent contraction of liability is shown to be dynamic in nature as both legal and medical knowledge have increased The intention of this book is to provide a concise review of the law comparing it to current medical knowledge in relation to PTSD The book is intended to be of use to professionals involved in psychiatric injury cases who require an up to date understanding of PTSD

relatively little scholarly attention at least from a comparative perspective The aim of this study is to examine national approaches to the award of damages under the head of loss of housekeeping capacity and to compare the levels of damages so awarded The research will therefore address both the concepts employed in different national systems and by means of practical case studies the compensation actually paid in individual cases The results of the research comprise ten country reports Austria England and Wales France Germany Italy The Netherlands Norway Poland Spain and Switzerland based on a Questionnaire Part I General Part and Doctrine Part II Concrete Assessment Examples and a concluding Comparative Report This project Loss of Housekeeping Capacity was undertaken at the request of the Swiss Insurance Association

Damages and Human Rights Jason NE Varuhas, 2016-05-19 Winner of the 2018 Inner Temple New Authors Book Prize and the 2016 SLS Peter Birks Prize for Outstanding Legal Scholarship Damages and Human Rights is a major work on awards of damages for violations of human rights that will be of compelling interest to practitioners judges and academics alike Damages for breaches of human rights is emerging as an important and practically significant field of law yet the rules and principles governing such awards and their theoretical foundations remain underexplored while courts continue to struggle to articulate a coherent law of human rights damages The book's focus is English law but it draws heavily on comparative material from a range of common law jurisdictions as well as the jurisprudence of international courts The current law on when damages can be obtained and how they are assessed is set out in detail and analysed comprehensively The theoretical foundations of human rights damages are examined with a view to enhancing our understanding of the remedy and resolving the currently troubled state of human rights damages jurisprudence The book argues that in awarding damages in human rights cases the courts should adopt a vindictory approach modelled on those rules and principles applied in tort cases when basic rights are violated Other approaches are considered in detail including the current mirror approach which ties the domestic approach to damages to the European Court of Human Rights approach to monetary compensation an interest balancing approach where the damages are dependent on a judicial balancing of individual and public interests and approaches drawn from the law of state liability in EU law and United States constitutional law The analysis has important implications for our understanding of fundamental issues including the interrelationship between public law and private law the theoretical and conceptual foundations of human rights law and the law of torts the nature and functions of the damages remedy the connection between rights and remedies the intersection of domestic and international law and the impact of damages liability on public funds and public administration The book was the winner of the 2016 SLS Peter Birks Prize for Outstanding Legal Scholarship and the 2018 Inner Temple New Authors Book Prize
