| Term              | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>NOT</b>        | This indicates that an incorrect answer is not to be disregarded but cancels another otherwise correct alternative offered by the learner. I.e. right plus wrong penalty applies.                                                                                                                                                                                                                                                                       |
| <b>IGNORE</b>     | The alternative to NOT – an incorrect answer that can be disregarded - is sometimes expressed in the mark schemes as IGNORE.                                                                                                                                                                                                                                                                                                                            |
| <b>AND</b>        | This indicates that both answers are required to score the mark.                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>e.c.f.</b>     | This means "error carried forward". This indicates that if a learner has made an earlier mistake and has carried his or her incorrect value forward to subsequent stages of working, he or she may be given marks indicated by e.c.f. provided his or her subsequent working is correct, bearing in mind his or her earlier mistake. This prevents a learner being penalised more than once for a mistake, but only applies to marks annotated "e.c.f." |
| <b>e.e.o.o.</b>   | The learner loses marks for "each error or omission".                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>c.a.o.</b>     | Accept the "correct answer only" for the mark.                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>o.w.t.t.e.</b> | This means "Or words to that effect" and should be used if the learner has written an answer that is different to that stated in the mark scheme but answer still assumes the same meaning.                                                                                                                                                                                                                                                             |
| <b>o.e.</b>       | This means "Or equivalent" and should be used where an answer is given that has the same meaning and is relevant in the context of the question.                                                                                                                                                                                                                                                                                                        |
| <b>l.s.w.</b>     | Where "Ignore subsequent workings" is shown, any workings that are shown for the response to a further question can be ignored as it is not required for the marks.                                                                                                                                                                                                                                                                                     |
| <b>s.o.i</b>      | This means "Seen or implied". Similar to "or equivalent", this should be used where the response to an answer has been seen previously or is implicit within another area where the learner has responded, e.g. a diagram.                                                                                                                                                                                                                              |
| <b>o.r.a</b>      | This means "Or reverse argument" and should be used where a learner has given the reverse or opposite response as that stated in the mark scheme. In most cases this still shows an understanding of the concept being assessed.                                                                                                                                                                                                                        |
