It guides users in the design of project and program outputs, activities, inputs, indicators, and targets to respond to gender issues in micro, small, and medium-sized enterprise development and finance operations. ADB staff can use the tool kit to identify social and gender issues to be documented in the initial poverty and social analysis during the concept phase. Consultants can use it to carry out more detailed social and gender analysis during the project preparatory, technical assistance, or detailed design or due diligence phase. It should be noted that the tool kit is not meant to be prescriptive. Rather, it offers a menu of entry points that the project team can choose from. **The Child**, 1915 **Geologic Literature on North America, 1785-1918** John Milton Nickles, 1923 **Monthly Bulletin of the New York Free Circulating Library** New York Free Circulating Library, 1895 *New York Court of Appeals.
