

IELTS Academic Writing Task 1 Activity - answer keys

Key to Procedure steps:

Step 2: Students have to spend a maximum of 20 minutes writing at least 150 words describing the main features of the graph, making comparisons and summarising it in their own words.

Step 3: The graph shows three time periods and both males and females in full and part time education. The main features are that the number of women in part and full time education increased, as did the number of men in part time education. The number of men in full time education fluctuated.

Step 6: The assessment criteria for task 1 are:

Task achievement – in the sample task all the main features of the graph are considered, nothing irrelevant is included and there are 179 words

Coherence and Cohesion – The answer has been divided into logical paragraphs and uses cohesive devices e.g. while, overall, as far as women are concerned....

Lexical resource – the vocabulary is varied e.g. went up, rose, increased, women, females, gradually, dramatically

Grammatical range and accuracy – there is a fairly good range and accurate use of grammatical structures e.g. comparatives – was lower than, adverbs – (increased) dramatically, past continuous – was fluctuating, passives – were involved

Key to Exercise 1

1. What four pieces of information do you learn from the four sentences above the chart?

The time you should spend; the introductory description of the chart; the instructions for the task; and the word count.

2. Should candidates just copy the information on the question paper for their introductory statement?

No. Candidates should use their own words at all times. Words and phrases copied directly from the question paper will not be assessed. They should try to paraphrase the information written on the question paper.

3. Is the information about High School students?

No. The information is about men and women studying in further education. The information in the first part of the question will help you to find out exactly who or what you are going to describe.

Blue,James Milton,Jane Saville,2000 A concern for quality and the growing number of international students have made the assessment of English for Academic Purposes a prime concern in British universities By drawing on the expertise of BALEAP and many EAP specialists this collection describes and critically evaluates current issues and debates in the field An introduction provides an overview of the state of assessment in EAP and this is followed by sections which investigate in depth individual issues such as the validity of

commonly used tests the utility of computer test batteries and other non traditional forms of assessment Also addressed with original research data are the varying requirements of individual departments students views of assessment and self assessment instruments These issues are relevant beyond the individual circumstances of British universities and should inform good practice not only in the UK but anywhere where students receive part or all of their education in English as a second or foreign language
