

### 1. Neutral the parking brake

The easiest way to be sure the vehicle is parked safely and doesn't roll back or forward is to use the parking brake. To ensure this gear, consult the labels in the trunk of the vehicle and those in the vehicle's owner's manual for the proper use of the brake.

After manually disengaging the vehicle and setting the gear, you should consider the following instructions and advice regarding the proper use of the parking brake.

Do "pull and push" tests when the vehicle is parked.

### Roll-down device

The roll-down device gives maximum protection when the selector lever is moved down past the full Service Brake (locking) or half lock and engine start. The device is a roll-down device located in the transmission housing that can be used to lock the gear.

### WARNING

Be careful when using the roll-down on slippery roads. Rapid acceleration may cause skidding.

### Driving the Automatic transmission

#### Starting the engine

The selector lever must be in **N (Neutral)** or **P (Park)** when the driving position is engaged. A red light will sound the engine from being started.

### Selecting a driving position

#### WARNING

When the selector lever is in a driving position, the vehicle may move out of the parking brake. Do not release the parking brake or foot brake until you are prepared to move. Vehicle motion is prevented for the vehicle as long as a driving position is selected.

If the engine must be running, consider how the selector lever is properly locked into the **P** position with the parking brake fully set. Otherwise, the tendency to go back toward **N** and the vehicle is motionless, even with the parking brake applied.

Do not accelerate while selecting a driving position. At the time the engine must run or idle, stop or stop and release the selector lever. The selector lever will be placed in the appropriate position by the transmission.

If the selector lever is moved, manually moved into **N (Neutral)** while you are driving, take your foot off the accelerator pedal and wait for the signal before selecting a driving position.

Never shift into **R (Reverse)** or **P (Park)** when the vehicle is in motion.

Pushing off

Push the lever. Wait for the selector lever to engage the gear. A light will sound and the vehicle will move forward.

#### Shifting

When shifting between forward **D** and reverse **R**, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

#### Shift to drive, road or lock

When shifting between forward **D** and reverse **R**, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

#### WARNING

When shifting to drive, road, or lock, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

Do not repeat "locking" shift and lock until vehicle is moving at high engine speed and before shifting to the reverse. Reversing may be caused by the automatic transmission and the vehicle may move.

#### Shifting

When **P (Park)** is selected, the vehicle is in a driving position and will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

When the selector lever is in the **P (Park)** position, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

Before you move the selector lever from the **P (Park)** position, you must always push the brake pedal before and while depressing the button in the trunk of the selector lever.

When the selector lever is in the **P (Park)** position, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

When the selector lever is in the **P (Park)** position, the vehicle will move forward or backward into a light driving position and the selector lever will be placed in the appropriate position.

Always read the **WARNING** on page 155.
