**A Modern Relation of Theology and Science Assisted by Emergence and Kenosis** Bradford McCall,2018-02-28 How should we attempt to understand the relationship between theology and science in the twenty first century In this book I will attempt to answer this question by examining several previous attempts to classify this relationship I also develop my personal view of the relation thereafter discussing some Catholic contributions to this project and then revisit some of my previously published material highlighting the role of panentheism therein and noting an emergent implication from the literature the resultant possibilities for God an implication that creates space for a broadly relational perspective of the process of emergence These movements allow me to argue that kenosis and emergence can add to the discussion of understanding the theology and science relationship Herein I advocate a monistic process based view of the overlapping relationship between theology and science

**Evolution** Bradford McCall,2020-07-15 Should we attempt to understand macro evolutionary biology in the twenty first century as secular or sacred This book will attempt to answer this question by exploring the secular evolutionary worldview the author s view of kenotic causation Whitehead s views on chance Derrida s views on non human animals a statement upon the God of chance and purpose Augustine s various theologies of creation a decidedly non dualistic macro evolution a provocative thesis regarding evolutionary Christology the connection between kenosis and emergence and an explication of both Anders Nygren and Thomas Jay Oord s views of love in the contemporary environ It also develops the author s personal view regarding necessary kenotically donated and self giving love and argues that kenosis and emergence can add to the discussion of understanding the theology science love symbiosis It advocates and explicates herein a monistic process based view of the overlapping relationship between theology and
