Ministry In Disaster Settings Lessons From The Edge:

Being a Crisis Chaplain Sidney Dekker, Lance Mergard, 2025-06-24 Being a Crisis Chaplain delivers the essential elements of crisis chaplaincy outlining the process of responding to crises with clarity and compassion Drawing from real world experiences and research this is a concise but comprehensive toolkit for navigating the delicate aftermath of crises Chapters explore ways to triage emotional cognitive and spiritual needs from the raw shock and grief to complex feelings of guilt and helplessness With practical guidance for recognizing and mitigating long term mental health issues such as post traumatic stress disorder this book also emphasizes the importance of self care for chaplains ensuring they can sustain their vital work without succumbing to secondary trauma The reader will develop an understanding of what a crisis chaplain does and how to act in a safe compassionate and humane manner in any type of crisis or disaster This book is for professionals on the front line of natural and human disasters and crises including emergency responders safety practitioners chaplains pastoral carers religious leaders and counsellors

Encyclopedia of Trauma Charles R. Figley, 2012-06-19 Trauma is defined as a sudden potentially deadly experience often leaving lasting troubling memories Traumatology the study of trauma its effects and methods to modify effects is exploding in terms of published works and expanding in terms of scope Originally a narrow specialty within emergency medicine the field now extends to trauma psychology military psychiatry and behavioral health post traumatic stress and stress disorders trauma social work disaster mental health and most recently the subfield of history and trauma with sociohistorical examination of long term effects and meanings of major traumas experienced by whole communities and nations both natural Pompeii Hurricane Katrina and man made the Holocaust 9 11 One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behavior which in turn is applicable to all fields involving human thought and response including but not limited to psychiatry medicine and the health sciences the social and behavioral sciences the humanities and law Researchers within these fields and more can contribute to a universal understanding of immediate and long term consequences both good and bad of trauma both for individuals and for broader communities and institutions Trauma encyclopedias published to date all center around psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services This element is vital and has benefited from scientific and professional breakthroughs in theory research and applications Our encyclopedia certainly will cover this central element but our expanded conceptualization will include the other disciplines and will move beyond the individual

Ministry in Disaster Settings, 2006 Handbook of Disaster Policies and Institutions John Handmer, Stephen Dovers, 2013-01-09 Disasters both natural and human induced are leading to spiralling costs in terms of human lives lost livelihoods and damaged assets and businesses Yet these consequences and the financial and human crises that follow catastrophes can often be traced to policies unsuited to the emerging scales of the problems they confront and the lack of institutional capacity to implement planning and prevention or

to manage disasters This book seeks to overcome this mismatch and to guide development of a more strategic policy and institutional framework This updated and revised second edition includes new coverage of climate change adaptation which has rapidly become central to disaster and emergency planning and management This is an essential handbook for practitioners across the world seeking to improve the quality robustness and capacity of their disaster management mechanisms
