India's New National Education Policy 2022 Dr. Rachita Shrivastava, Dr. Manjunath H.P, Geetanjali Yadav, Dr. Lavudya Thirupathi, 2023-07-05 Education's ultimate goal is to foster each student's individual growth and development by helping them achieve a sense of inner harmony. The goal is to help the kid grow up to be a well-rounded individual who can work well with others and appreciate other cultures. Value education is an all-out effort and movement in which older, more experienced people help younger people in settings like homes, schools, clubs, and religious and other organizations to articulate their core beliefs, consider and acquire new beliefs that are more conducive to long-term happiness, and act accordingly. Therefore, what is needed is value education which is concerned with making deep quality a living worry for pupils. Value Inspiring learning is how we instil moral principles in our students. The concept revolves around the method used to instil moral principles to create increasingly polite majority rule social systems via formal education. Education based on these values promotes resilience and understanding that extends well beyond the social, political, and strict distinctions, placing special emphasis on the protection of human rights, the protection of ethnic minorities, and the neediest groupings and the preservation of the environment. The hope is that future generations will contribute to society by becoming model citizens who uphold high moral standards. Similar goals have been pursued by approaches that emphasize morality, character development, and theory-based instruction. The goal of this kind of education is to help students become contributing members of society who are also compassionate, fair, and courageous.

Two Tales of Crow and Sparrow Alan Dundes, 1997-11-20 This provocative book by a leading folklorist offers a new analysis of caste in India, focusing on the rationale underlying the customs surrounding untouchability. Drawing on clues contained in two fascinating folktales, Alan Dundes goes beyond Dumont's classic *Homo Hierarchicus* in deconstructing the pervasive pollution complex that prevents millions of individuals from entering temples or drawing water from community wells. His graceful and erudite explanation of caste also illuminates the mysterious worship of the sacred cow as well as sati, suttee, or widow burning. The author concludes by relating caste to the theory of marginal survival, drawing on Gypsy concepts of pollution. This controversial book offers a fresh perspective for anyone interested in India's folklore and psychoanalytic anthropology, a detailed case study documenting how folklore as a source of native categories and symbols can yield unique insights into the unconscious functioning of a culture through time. In this comprehensive textbook, renowned philosopher J. N. Mohanty examines the range of Indian philosophy from the Sutra period through the 17th century. Navya Nyaya Classical Indian Philosophy is divided into three parts that cover epistemology, metaphysics, and the attempt to transcend the distinction between subject and object. Mohanty focuses on the major concepts and problems dealt with in Indian philosophy, including ethics, social philosophy, law, and aesthetics. Students of Indian philosophy at every level will find this a rich and rewarding text.
