Nhamo, Vuyo Mjimba, 2019-12-19 *The Green Building Evolution* illuminates global examples and makes use of case studies mainly from South Africa. This book is in five parts. Part I is a single introductory chapter centred on the evolution of the green building movement. Part II addresses the green building terrain. Part III presents selected case studies. Part IV focuses on chapters that address pushing the boundaries in the green building space while Part V presents emerging trends and policy perspectives. Further details are contained in the main body of the book. It is our sincere hope that readers will experience the book as an informative and ground breaking adventure. Written by 14 authors from different academic disciplines and areas of specialisation, the book comes as the sixth in a series that addresses global and national concerns on climate change, sustainable development and the green economy transition agenda. The book series is conceptualised and coordinated by the Exxaro Chair in Business and Climate Change led by Prof Godwell Nhamo and hosted by the Institute for Corporate Citizenship ICC at the University of South Africa (UNISA). The books are published by the Human Sciences Research Council (HSRC) through the Africa Institute of South Africa. [Foundations of Infectious Disease: A Public Health Perspective](#)

David P Adams, 2020-03-16 Designed to introduce senior undergraduates and graduate students in public health and nursing to the study of infectious disease, *Foundations of Infectious Disease: A Public Health Perspective* places the study of infectious diseases squarely into its social, historical and scientific context to demonstrate how it applies to the public and community health setting. Beginning with an introductory chapter that surveys how infectious diseases have impacted human societies over the centuries, this broad descriptive text moves on to examine epidemiological concepts related to infectious disease from outbreak and epidemic investigations to study design, infectious disease transmission and prevention. Subsequently, it delves into infectious disease topics of concern to today's public and community health professionals: sexually transmitted infections, foodborne infections, healthcare acquired infections and neglected tropical diseases. [Inclusive Businesses in Agriculture](#)

Wyske Chamberlain, Ward Anseeuw, 2017-03-30 Inclusive business is hailed as a win-win scenario for the development of poor communities, yet there is little insight into how these inclusive businesses work and more importantly for whom. This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement, the actors involved and whether they are effectively inclusive of smallholders. It presents a range of case studies and is therefore empirically based and practically oriented. By offering a critical assessment of inclusive businesses, overall it allows for a better perception of what works, where and under which conditions. It provides useful insights that will benefit smallholders, agri-businesses, support groups, policy makers and investors who are willing to promote more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector. **Emerging Infectious Diseases**, 2017-07 [Annual Report](#) South Africa.
