

HS14 SERIES UNITS WITH TSC SOLID STATE TWO SPEED CONTROL

The HS14 is a residential conditioning unit which features a two speed compressor. The two speed operation was initially controlled by electromechanical timers and switches. Beginning with HS14-5 and -6 series units, two speed operation will be controlled by the new Lennox TSC solid state two speed control. HS14-5 series units utilize a Lennox two speed compressor and a TSC-1 two speed control. HS14-6 series units utilize a Bristol two speed compressor and a TSC-2 two speed control.

The first part of this manual describes the components used in HS14's. The latter part of this manual describes the sequence of operation for units using the TSC. A troubleshooting flowchart has been included at the end of the sequence section to help diagnose unit problems.

Units not using the TSC will have a slightly different sequence of operation from units which are equipped with the TSC.
