**Community and Junior College Journal**, 1974 American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography, 1978 Knowledge Spaces Jean-Claude Falmagne, Dietrich Albert, Christopher Doble, David Eppstein, Xiangen Hu, 2013-06-20 The book describes up to date applications and relevant theoretical results These applications come from various places but the most important one numerically speaking is the internet based educational system ALEKS The ALEKS system is bilingual English Spanish and covers all of mathematics from third grade to the end of high school and chemistry It is also widely used in higher education because US students are often poorly prepared when they reach the university level The chapter by Taagepera and Arasasingham deals with the application of knowledge spaces independent of ALEKS to the teaching of college chemistry The four chapters by Albert and his collaborators strive to give cognitive interpretations to the combinatoric structures obtained and used by the ALEKS system The contribution by Eppstein is technical and develops means of searching the knowledge structure efficiently *Monographic Series* Library of Congress, Chem C&A App Sci Met Che John S.

Phillips, McGraw-Hill Education, 1996-06 Unplugging the Classroom Hilary Anne Wilder, Sharmila Pixy Ferris, 2017-05-17 Unplugging the Classroom Teaching with Technologies to Promote Students Lifelong Learning provides techniques to help teaching and learning in an age where technology untethers instruction from the classroom from semester seat time and from a single source of expertise The book brings together researchers and practitioners from diverse academic fields

including library perspectives and presents interdisciplinary discussions from both theoretical and applied areas It is unique in its goal of bringing educators and librarians together to explore the challenges that are faced by students and faculty in any time any place any path and any pace learning In spite of the fact that the mobile revolution has definitively arrived students and faculty alike aren't ready to make the leap to mobile learning The pressures of technological advances along with the changing nature of learning will demand increasingly profound changes in education Researchers have begun to address this issue but the revolution in mobile communication has not been accompanied by a concomitant growth in pedagogical resources for educators and students More importantly such growth needs to be under girded by sound learning theories and examples of best practice Provides a hands on resource useful to both novices and experts for technology enabled teaching and learning Gives both discipline specific and cross disciplinary perspectives Discusses discipline specific mobile applications Offers an opportunity to meet the needs of contemporary learners and foster their competencies as lifelong learners Addresses emerging issues in technology and pedagogy
