

# Master ADMISSION ESSAY

I have an East Indian heritage. My parents moved to the USA from Cambodia. Such background offered me a diverse cultural experience when I was still growing up. I grew up filled with an interesting opportunity of being able to visit Hindu and Buddhist temples, eating curries and pizza, as well as listening to both Eastern and American music. Such experiences have made me the kind of person that I am today. Through my social and professional work, I can freely share my interesting background with them.

I constantly do my best to get myself involved in various organizations that can educate students regarding my culture. This also works on those that advocate as representative of minorities on schools. After graduation, I still want to raise the awareness of others on issues that are important, and are being faced societies all over the world. This has motivated me directly to enter television industry.

Through this means, I have written about my experience and culture while I was producing certain segments for a TV show. On top of that, I also urge co-producers who want to write further segments about various communities. In order to complement my personal work on TV, I also began writing articles for various magazines in the country, discussing about my personal experiences as a considered first generation American.

Aside from my diverse culture, my personal experience in the world of media has given me opportunities to meet a diversity of people. All of those encounters have been very unique to me, making me a very distinct person. Also, writing about them has also taught me a lot of things about myself, while helping me simultaneously grow as a professional writer. Those experiences made me the person I am today, and I will never be hesitant to share all of my knowledge and experiences with other people.
