Ippc Practice Manual For May 2013 Auditing:

Practical Auditing Dr. S. V. Shinde, **Social Audit Regulation** Mia Mahmudur Rahim, Samuel O. Idowu, 2015-05-11

This book takes the concept of social audit and lifts it beyond the role of functioning largely as a management tool. The book proposes a system in which social audit is regulated so as to provide a mechanism for effectively promoting corporate accountability in society. Taking this as its theme, this book provides both a conceptual explanation of the developmental perspectives of social audit regulation and empirical evidence of the impact of social audit practice from different parts of the world. It is the first book to explore the issues and challenges related to the development of effective social audit regulation.

National Climate Change Adaptation Emerging Practices in Monitoring and Evaluation OECD, 2015-04-16. This report draws upon emerging monitoring and evaluation practices across developed and developing countries to identify four tools that countries can draw upon in their own assessment frameworks.

Climate Change Public Expenditure and Institutional Review Sourcebook (CCPEIR) Adrian Fozzard, This Climate Change Public Expenditure and Institutional Review Sourcebook CCPEIR seeks to provide practitioners with the tools and information needed to respond to the public expenditure policy and management challenges arising from climate change. It is a series of notes and supporting materials written as a first step towards consolidating current research and international experience identifying emerging practice and providing practical and applicable guidance for staff of central finance agencies, development agencies, environmental agencies and other international organizations working on climate change issues. In addition to emphasizing the importance of strengthening national systems throughout the Sourcebook focuses on the specific public expenditure policy and management challenges posed by climate change such as decision making in the face of uncertain future climate conditions, expenditure planning for extreme weather and climate events, the lack of agreed budget definition and classification of climate change activities.
