

Introduction

This memorandum provides information relative to the implementation of activity based costing (ABC) system at your institution. In addition to Exhibit 1.5, a number of other tables – Exhibit 1.1, 1.2, 1.3 and 1.4 have been provided in the attached Excel Spreadsheets. These provide information on the cost of different activities and cost objects.

Relative Profitability of the Courses

The application of activity based costing (ABC) system to The University of Australia has provided information that will help to determine the relative profitability of the courses offered.

The table in Exhibit 1.5 provides this information.

Exhibit 1.5 Calculation of the Profitability of Each Cost Object			
Description	Cost Objects		
	Accounting	Economics	Law
Revenue	450,000	320,000	525,000
Expenses	205,132	149,704	192,164
Profit	244,868	170,296	332,836
Percentage	54.42%	53.22%	63.40%

Exhibit 1.5 indicates that Law is the most profitable course with a percentage profit of 63.4% followed by Accounting with 54.42% and Economics the least profitable with 53.22%. The difference in profitability among the three courses can be attributed to the differences in the fees charged per EFTSL and the amount of government grant received per EFTSL. The student fee per EFTSL is highest for the Law course and lowest for the economics course. In fact, the student fee for the Law course is \$6,000 or 67% more than the economics course and \$5,000 or
