Featuring research on topics such as business ethics, mobile technology, and cyber security, this book is ideally designed for knowledge workers, business managers, executives, entrepreneurs, small and medium enterprise managers, academicians, researchers, students, and global leaders seeking coverage on the management of sustainable enterprises. Basics of Accounting Carsten Berkau, Keabetswe Sylvia Berkau, 2018-04-23 *Basics of Accounting* targets students in international business study programs. It covers the widely applied syllabus of Accounting at universities on bachelors and masters level. In this book, the application of the methods comes first. The Basics teach how to do Accounting by a case study based approach. All cases were taken from former exam papers at international universities and calculated completely and illustrated understandably. *Bookkeeping and Financial Accounting* covers the preparation of financial statements based on IFRS. *Bookkeeping* is taught as far as it is required for the understanding by managers; more formal aspects about how to keep financial records are cut short to the minimum.

Financial Statements Carsten Berkau, 2025-10-13 The textbook covers the preparation, disclosure, and analysis of financial statements on a bachelor's and master's level. It contains more than sixty case studies and numerous links to an online materials bank. As the cases dominate the textbook space, readers get the impression to observe accountants at work. The case studies comprise detailed calculations, journal entries, T-accounts, and financial statements. For open book exams, the text includes how it is done, paragraphs which offer directions for accounting work. The textbook's structure follows the sequence of balance sheet items, beginning with non-current assets and ending at income tax liabilities. It further discusses a full set of financial statements. Readers can download numerous online materials like exam tasks with solutions thereto, links to youtube clips produced by the author, and spreadsheets for support of their accounting work in academia.
