Quand manager c'est philosopher Martin Fortuné Mukendji Mbandakulu,2022-12-16 Management et philosophie ne sont pas opposés ou loignés l'un de l'autre Le manager pour organiser et projeter a nécessairement besoin de la philosophie d'avoir un esprit critique suffisant Le philosophe régit du management qui s'occupe des conditions humaines au travail de la matière pour penser qui nourrit sa réflexion C'est dire que la philosophie et le management le philosophe et le manager ont des choses à partager La philosophie doit cesser de n'être l'affaire que de quelques personnes il faut la remettre la porte de tous pour qu'elle soit faite par tous Ce livre fait des propositions en ce sens dans le domaine de l'enseignement notamment et aborde par ailleurs les thèmes de la popularisation ainsi que les modalités de son applicabilité

Godé Mpoy Kadima, 2019-10-31 Le continent africain constitue un marché potentiel significatif pour l'Occident et pour le monde entier en général. L'enjeu économique du continent dans le contexte de la mondialisation et de la zone de libre échange africaine passant inévitablement par un engagement massif et effectif dans le commerce mondial, l'auteur relève que dans leurs faits actuels, les mécanismes et les instruments de l'OMC maintiennent l'Afrique dans une dépendance économique préjudiciable. Relevant le caractère inéquitable de l'Accord de facilitation des échanges de l'OMC, l'auteur pose d'une part une interrogation générale sur la pertinence et l'efficacité de l'action de l'institution dans le continent et d'autre part propose aux faits africains une stratégie globale d'ensemble face aux défis et perspectives du commerce international.

Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume I Houcine Berbou, Aziz Fassouane, Mustapha Belaisaoui, 2020-04-06 This book brings together papers presented at the 3rd Conference of Research in Economics and Management CIREG held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions they highlight the contribution of researchers in the fields of business and management with all their micro and macro economic aspects. They shed light on the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change rather than in constructing a category, a particularly useful empirical concept. This first volume is focused on economic issues.
