

The image shows a close-up of a black electronic device, identified as an XR-61 VHF Receiver Diversity unit. The device is mounted on a wooden surface, possibly a boat's interior. In the background, a window with a grid pattern looks out onto a bright, sunny day with trees visible. A coiled black cable is connected to the top left of the device. The text "XR-61" is prominently displayed in large, bold, red and white letters. Below it, "VHF RECEIVER DIVERSITY" is written in smaller, white, sans-serif capital letters. To the right of the main text is a red logo for "NADU SYSTEM INC." which consists of the word "NADU" in a stylized font above "SYSTEM" and "INC." in smaller text, all enclosed within a red shield-like shape. The device itself has a sleek, black finish with some metallic accents.
