

LES ESPACES PRODUCTIFS

Développement construit :

Introduction : Un espace productif est un espace dans lequel se développe des activités économiques qui peuvent être agricoles, industrielles mais également de services. Il existe 3 principaux secteurs économiques :

- **secteur primaire** (pêche, bois, agriculture...)
- **secteur secondaire** (industries)
- **secteur tertiaire** (banque, assurance ...)

Comment les espaces productifs s'adaptent-ils à la mondialisation ?

Dans une première partie, nous traiterons les espaces productifs en reconversion puis nous analyserons la concentration des services en France.

Développement : - Aujourd'hui, les espaces industriels sont en mutation. La France est une **puissance industrielle (8ème mondiale)**. **L'Ile-de-France reste le premier espace productif** cependant, la France est touchée par la **désindustrialisation** et les raisons en sont variées : **délocalisation vers les pays étrangers où les coûts sont plus faibles et la concurrence internationale**. C'est le cas de l'usine Michelin de Clermont-Ferrand. Entre 1982 et 2012, les effectifs de l'usine de Cataroux (Quartier de Clermont-Ferrand) sont passés de 28 000 à 12 500, elle s'est par ailleurs reconvertie pour fabriquer désormais des pneus de compétitions. Les deux usines de Clermont-Ferrand (Gravanches et Cataroux) produisent seulement 22 600 tonnes de pneu par an contre 195 800 tonnes par an dans l'usine espagnole
