NAME:

QUESTION 1

- 1.1 The rate of water loss from the leaves of a potted plant can be measured by determining the mass of the plant at one-hour intervals.

An investigation was done to determine the effect of light intensity on the rate of water loss.

At each light intensity the apparatus was left for 15 minutes before determining the mass.

The loss of water was then determined and recorded in the following table:

Light intensities (kilolux)	Loss of water (g/hour)
0	1
10	15
20	20
30	22
40	22

- 1.1.1 What is the name of the process through which a plant loses water, in the form of water vapour, from the leaves?

_____ (1)

- 1.1.2 Give the dependent variable of this investigation.

_____ (1)

- 1.1.3 Name ONE way in which the validity of the results was ensured at each light intensity.

_____ (1)

Personalized Medicine and Neurosurgery M. Yashar S. Kalani, Nicholas Theodore, 2017-11-22 The Precision Medicine Initiative which was instituted by President Barack Obama on January 20 2015 highlighted the importance that advances in

genomics and related omic approaches have made to science and medicine and it set the stage for their federally funded and mandated integration into the delivery of health care Whether these advances comprise large scale approaches such as The Cancer Genome Atlas which provides a modern classification of cancers based on molecular profiles or genealogy initiatives which seek to trace the movement of our early ancestors out of Africa genomic technology has taken us closer to developing targeted therapies and a refined understanding of our evolutionary journey It is against this backdrop that we summarized some of the recent advances in the field of precision medicine or personalized medicine as they pertain to neurosurgery In this e Book collection provided by Frontiers in Surgery Neurosurgery we present a collection of articles by leaders in the field of neurosurgery that highlight domains using a personalized approach for the treatment of patients or avenues when personalization is possible and when it will likely alter the care of patients with neurological diseases **Handbook of**

East Asian Contexts Kerry J. Kennedy, 2020-07-28 The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices In an increasingly volatile and unpredictable world the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different

societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies
