

# EC-Multi-Sensor-BLE

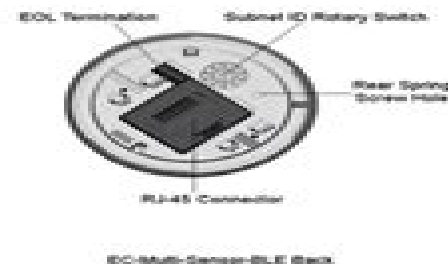

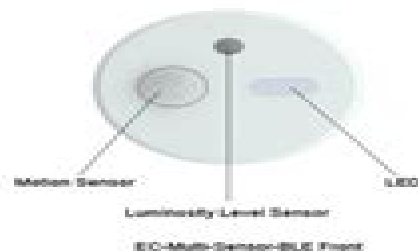

Ceiling mounted multi-sensor with Bluetooth® low energy technology

## Product Description

The EC-Multi-Sensor-BLE combines a motion detector, a light sensor, a temperature sensor, and a Bluetooth transceiver in a single compact device. This allows to receive input signals from a mobile application and to acquire presence, light level and temperature information to control all comfort parameters in a room according to the occupancy status.

The sensor can be directly connected to an ECLYPSE controller or an expansion module with a digital RJ-45 link, or daisy-chained using an ECx-Subnet-Adapter. It can be used alone, or with a mobile application. An LED light provides a visual feedback during the commissioning process and mobile app use.

## General Installation Requirements

For proper installation and subsequent operation of this product, pay special attention to the following recommendations:

- ☐ Keep this product at room temperature for at least 24 hours before installation to allow any condensation that may have accumulated due to low temperature during shipping/storage to evaporate.
