Holocaust Education E. Doyle Stevick, Deborah Michaels, 2017-10-02 Holocaust Education Promise Practice Power and Potential provides timely studies of some of the most pressing issues in teaching and learning about the Holocaust around the world Europe is experiencing both anti Semitic attacks many by radicals claiming the banner of Islam and the resurgence of right wing movements that are openly hostile to minority rights particularly for marginalized and vulnerable groups like the Roma Sinti and Muslim refugees Can Holocaust education an encounter with the most extreme racial ideology to afflict the continent reduce violence and prejudice against Jewish and other minority groups The important studies in this volume address these and other pressing issues for the field including the progress of Central and Eastern European countries that experienced both Soviet hegemony and Nazi terror in grappling with the history of the Holocaust This book was originally published as a special issue of Intercultural Education

Holocaust Public Memory in Postcommunist Romania Alexandru Florian, 2018-01-24 How is the Holocaust remembered in Romania since the fall of communism Alexandru Florian and an international group of contributors unveil how and why Romania a place where large segments of the Jewish and Roma populations perished still fails to address its recent past These essays focus on the roles of government and public actors that choose to promote construct defend or contest the memory of the Holocaust as well as the tools the press the media monuments and commemorations that create public memory Coming from a variety of perspectives these essays provide a compelling view of what memories exist how they are sustained how they can be distorted and how public remembrance of the Holocaust can be encouraged in Romanian society today

Europe in the Classroom Simona Szakács, 2017-10-13 This book provides an unconventional account of post 1989 education reform in Romania By drawing on policy documentation interviews with key players qualitative data from everyday school contexts and extensive textbook analysis this groundbreaking study explores change within the Romanian education system as a process that institutionalises world culture through symbolic mediation of the concept Europe The book argues that the education system s structural and organisational evolution through time is decoupled from its self depiction by ultimately serving a nation building agenda It does so despite notable changes in the discourse reflecting increasingly transnational definitions of the mission of the school in the post 1989 era The book also suggests that the notions of nation and citizen institutionalised by the school are gradually being redefined as cosmopolitan matching post war patterns of post national affiliations on a worldwide level

Cultural Transformations After Communism Barbara Törnquist-Plewa, Krzysztof Stala, 2011-01-08 Focusing on the profound transformation in Central and Eastern Europe since the fall of the Iron Curtain this record analyzes complex cultural dimensions such as lifestyles habits value markers and identity Written by a group of experts it presents case studies from the former communist countries that are members of the European Union today and attempts to answer crucial questions about the constructions of a new identity in the region Have the processes of democratization and opening the borders

produced mentality changes and new value systems Is there a convergence of values and cultures between the new and old EU members Have there been backlashes in the processes of reconstructing national identities This book is a valuable resource for anyone interested in European integration issues of national identity and the politics and culture of the post Communist countries **Anuarul Institutului de Istorie Cluj-Napoca** ,1997 **Bibliografia națională română** ,2008
