**Youth Revolution** Kiara Nirghin,2019-01-01 Youth Revolution is the inspirational story of how Kiara Nirghin a sixteen year old high school student from Johannesburg overcame severe health obstacles to win the grand prize at the 2016 International Google Science Fair for her unique and innovative solution to worldwide drought Having experienced bacterial meningitis undiagnosed bilharzia and severe weight loss Kiara was forced to postpone her school career for hospitalisation with a real chance of losing her hearing her sight and the use of her limbs Youth Revolution not only covers her journey from the hospital bed to the international stage as the winner of the science award but also looks at issues surrounding stagnant youth innovation while considering the dangers of lacking diversity in STEM science technology engineering and maths The book includes contributions from prominent women in science and education among them Malala Yousafzai the Pakistani activist for female education and the youngest Nobel Prize laureate Youth Revolution is a deeply human and truly inspirational real life story that will enthral teenagers and adults alike proving that even ordinary teenagers can do extraordinary things *Federal Register* ,2013-09 *Wildlife Crime* Great Britain: Parliament: House of Commons: Environmental Audit Committee,2012-10-18 Wildlife legislation has become so complex that prosecutions fail and even specialist enforcement professionals struggle to implement it effectively Hundreds of birds of prey have been deliberately poisoned with substances such as carbofuran that have no legal use and the Government could easily make possession an offence The lack of sentencing guidelines on wildlife offences means that some offenders are being neither punished nor deterred in the courts The CPS is also failing to train its prosecutors to handle complex wildlife cases Furthermore the inflexible implementation in UK law of international agreements covering the trafficking of endangered species squanders limited resources The Government has maintained funding for specialist wildlife crime investigation and enforcement but this is provided on an ad hoc basis reducing operational effectiveness Funding provided to monitor wildlife crime on the internet was too short term to attract a suitably qualified individual to fill the post In 2004 the Committee called for a new database to record all wildlife crime but this has still not been introduced Internationally this report also examines how the rhino tiger and elephant are being driven to extinction by growing demand for illegal wildlife products in south east Asia and China The Government needs to exert robust diplomatic pressure in favour of the development and enforcement of wildlife law at the next CITES meeting in March 2013 In particular the Government should focus attention on the damaging effect of one off sales of impounded ivory which has been found to actually fuel demand for ivory products and seek an unequivocal international ban on all forms of ivory trade *Blood of the Tiger* J. A. Mills,2015-11-24 Blood of the Tiger takes readers on

a wild ride to save one of the world's rarest animals from a band of Chinese billionaires. Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming. There may be only three thousand wild tigers left in the entire world. More shocking is the fact that twice that many, some six thousand, have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine, tiger skin, and exotic cuisine enjoyed by China's elite. Two decades ago, international wildlife investigator J. A. Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock. Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild. In this memoir of triumph, heartbreak, and geopolitical intrigue, Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion-dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos. Her journey takes her across Asia into the jungles of India and Nepal, to Russia and Africa, traveling by means from elephant back to presidential motorcade in the company of man-eaters, movie stars, and world leaders. She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats. She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland. Set against the backdrop of China's ascendance to world dominance, *Blood of the Tiger* tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals.
