Life Orientation Nsc Grade Exemplar Dbe:

Annual Report South Africa. Department of Basic Education, 2016 Educational Leadership in Becoming Nuraan Davids, Yusef Waghid, 2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education **Strategic Management in the Public Sector** Trevor H. Thys, Prof Charles Wait, Prof Ilse Truter, 2022-07-13 Chapter 1 Integrative strategic planning in South Africa Conceptual frameworks Chapter 2 Electoral mandate priorities policy and strategy Chapter 3 Economic planning economic policy or development policy Past present and future Chapter 4 Planning human resources Chapter 5 General management and leadership Chapter 6 Strategy formulation and environment analysis Chapter 7 Internal analysis and implementation Chapter 8 Strategy implementation and change management Chapter 9 Performance management system Chapter 10 Monitoring and evaluation Chapter 11 Health care in South Africa Chapter 12 Socio economic context of education
