Interest in Mathematics and Science Learning Ann Renninger, Martina Nieswandt, Suzanne Hidi, 2015-04-19 Interest in Mathematics and Science Learning edited by K Ann Renninger Martin Nieswandt and Suzanne Hidi is the first volume to assemble findings on the role of interest in mathematics and science learning As the contributors illuminate across the volume s 22 chapters interest provides a critical bridge between cognition and affect in learning and development This volume will be useful to educators researchers and policy makers especially those whose focus is mathematics science and technology education      *WHOLE* Rex Miller, Bill Latham, Kevin Baird, Michelle Kinder, 2020-02-25 A shocking statistic in education reveals that 70% of K 12 teachers work under chronic stress This revolutionary new book explains how removing stress from the classroom holds the key to improving education The book also explains what administrators teachers parents and communities can do to help accomplish a stress free classroom For years the expert voices said disengagement was the

crucial issue behind poor educational environments and results Naturally only massive reform could fix it But what if the enormous restructuring and expenditures attacked the wrong problem MindShift an organization that reframes tired and clogged conversations pushed the old conclusions off the table and started fresh They gathered diverse leaders in education leadership neuroscience architecture and wellness in working forums around the nation These pivotal meetings produced WHOLE a game changing approach to education This book captures the story and details of how the system can be remade for real and lasting benefits to everyone With the authors expertise the book exposes the exhausted and antiquated thinking that led to the present crisis But WHOLE also proposes a new era of disruptive change that can produce happier healthier and more successful education for the 21st century The book introduces the outliers tells the stories and presents the roadmaps to Why teachers should be seen as high performance athletes requiring time for recovery and preparation How schools can become field hospitals combining learning with healing Why space matters how redesigning and refurbishing schools can eliminate stress and produce learning environments that are more open and inviting Ways to properly integrate schools within communities building honest relationships increasing social capital and achieving transparency that increases success Packed with real life examples new research and solutions that you can introduce to your own schools students and communities WHOLE shows us how to move schools from the age of stress and insecurity to an age of true educational flourishing After Piketty Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08 Are Thomas Piketty's

analyses of inequality on target Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation In *After Piketty* a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right **Homeschooling High School** Shirley

Erwee, 2014-08-28 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers They need information and answers to their questions And with the current educational and unemployment problems in South Africa young people need clear direction and guidance to help them achieve their goals In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system *Homeschooling High School* also challenges readers to rethink their values particularly the value they place on certification and to consider some unconventional or alternative paths to success In a clearly presented format the book includes advice on legal matters identifying appropriate courses sourcing study material tips on entrepreneurship financing tertiary studies and the testimonies of successful homeschooled graduates *Homeschooling High School* is a comprehensive guide to plotting a path through high school and beyond Science Abstracts, 1992 *Mapping ASEAN* David Carden, 2019-09-10 For half a century ten dynamic nations in Southeast Asia have been implementing a shared vision of economic growth sustainable development and cultural progress Today the economies of those nations are linked inextricably with the future of greater

Asia as well as with the United States and the other Western countries With authoritarianism and protectionism on the rise around the world and the catastrophic effects of global warming making action urgent the nations that form the Association of Southeast Asia Nations are more relevant and under greater political and social stress than ever In these illuminating pages David Carden the first American resident ambassador to ASEAN paints a vivid portrait of the regional and global cooperation required to meet today and interconnected future Carden takes us behind the scenes as the leaders of these ten nations work to prepare their countries and their region for the 21st century Carden persuasively argues that the unfolding story of the ASEAN nations is a story for the entire world that we are all increasingly interdependent and confronted with the existential need to solve the same set of challenges

**Oh, Florida!** Craig Pittman, 2016-07-05 A New York Times Bestseller

Oh Florida That name That combination of sounds Three simple syllables and yet packing so many mixed messages To some people it s a paradise To others it s a punch line As Oh Florida shows it s both of these and more important it s a Petri dish producing trends that end up influencing the rest of the country Without Florida there would be no NASCAR no Bettie Page pinups no Glenn Beck radio rants no USA Today no Stand Your Ground you get the idea To outsiders Florida seems baffling It s a state where the voters went for Barack Obama twice yet elected a Tea Party candidate as governor Florida is touted as a carefree paradise yet it s also known for its perils alligators sinkholes pythons hurricanes and sharks to name a few It attracts 90 million visitors a year some drawn by its impressive natural beauty others bewitched by its manmade fantasies Oh Florida explores those contradictions and shows how they fit together to make this the most interesting state It is the first book to explore the reasons why Florida is so wild and weird and why that s okay Florida couldn t be Florida without that sense of the unpredictable unexpected and unusual lurking behind every palm tree But there is far more to Florida than its sideshow freakiness Oh Florida explains how Florida secretly subtly influences all the other states in the Union both for good and for ill
