Life Science Papertrail Exemplar 2014:

The Routledge Companion to Literature and Human Rights Sophia McClennen, Alexandra Schultheis Moore, 2018-02-05

The Routledge Companion to Literature and Human Rights provides a comprehensive transnational and interdisciplinary map to this emerging field offering a broad overview of human rights and literature while providing innovative readings on key topics. The first of its kind, this volume covers essential issues and themes necessarily crossing disciplines between the social sciences and humanities. Sections cover subjects with pieces on subjectivity, humanity, identity, gender, universality, the particular, the body, forms, visiting the different ways human rights stories are crafted and formed via the literary, the visual, the performative, and the oral contexts, tracing the development of the literature over time and in relation to specific regions and historical events, impacts, considering the power and limits of human rights literature, rhetoric, and visual culture. Drawn from many different global contexts, the essays offer an ideal introduction for those approaching the study of literature and human rights for the first time, looking for new insights and interdisciplinary perspectives, or interested in new directions for future scholarship. Contributors: Chris Abani, Jonathan E. Abel, Elizabeth S. Anker, Arturo Arias, Ariella Azoulay, Ralph Bauer, Anna Bernard, Brenda Carr, Vellino Eleni, Coundouriotis James, Dawes Erik, Doxtader Marc, D. Falkoff Keith, P. Introduction to Counseling Michael Scott Nystul, 2015-07-09. Introduction to Counseling by Michael Scott Nystul provides an overview of counseling and the helping professions from the perspective of art and science, the science of counseling that generates a knowledge base proven to promote competency and efficacy in the practitioner, and the art of using this knowledge base to build skills that can be applied sensitively to clients in a multicultural society. The Fifth Edition has been organized into three sections: 1. an overview of counseling and the counseling process; 2. multicultural counseling and counseling theories; and 3. special approaches and settings. It continues to address key topics and issues including gender, culture, and sexual orientation, and offers ways to integrate multiculturalism into all aspects of counseling rather than view it as a separate entity. Highlighting emerging trends and changes in ethical codes as well as reflecting the latest updates to the Diagnostic Statistical Manual (DSM-5), the book successfully illustrates the importance of art and science to modern-day counseling.
