**Fighting on the Cultural Front** Hongshan Li, 2024-04-09 The Cold War conflict between the United States and the People s Republic of China did not only encompass political military diplomatic and economic clashes The two powers also confronted each other on the cultural front Despite a long history of extensive and mostly constructive cultural interactions the two nations cut off existing ties in the late 1940s and early 1950s and established new relationships aimed at attacking and isolating each other Even after Beijing and Washington permitted cultural exchange as part of their effort to normalize diplomatic relations in the 1970s the weaponization of cultural interactions continued Hongshan Li provides a groundbreaking account of the confrontation between the United States and

the People's Republic of China on the Cold War's cultural front. He investigates the origins, evolution, and significance of the role of cultural interactions in the shifting relations between the United States and the PRC from the late 1940s through the late 1970s. Li demonstrates that the drastic transformation of U.S.-China cultural interactions not only altered the course of Sino-American cultural relations but also shaped the Cold War experience of the two peoples. *Fighting on the Cultural Front* examines topics such as competition and conflicts over Chinese students and scholars stranded in the United States; maneuvers on the authorization of journalistic exchanges; the establishment of Taiwan as a cultural bastion; and Beijing's promotion of its revolutionary ideology through individual U.S. citizens, particularly African Americans. This important book offers a new lens on the history of U.S.-China relations and the cultural side of the global Cold War. *Corridors of Contagion*

Victoria Law, 2024-09-10. Tracing the narratives of five incarcerated individuals, *Sentenced to COVID* speaks to the devastating impact of surviving the pandemic inside prison walls. *Corridors of Contagion* brings to light the experiences of five people incarcerated across the United States as they navigate the onset of the pandemic and the many months stretched into years that followed. Journalist Victoria Law combines this storytelling with a trenchant analysis of the structural failures of the U.S. carceral system: failures that made prisons uniquely vulnerable to COVID-19 outbreaks, from overcrowding to solitary confinement, from insufficient healthcare to life sentences. The book portrays the horrors of continual lockdowns not in the comfort of one's own home but in prisons where routine violence and chaos is made even more unimaginable by the complete lack of control over protection from a terrifying and lethal new virus. The pandemic provided an opportunity for lawmakers and policy makers to rethink the nation's addiction to perpetual punishment. Instead, U.S. jails and prisons doubled down on punishment under the guise of pandemic protections. As a result, people behind bars experienced increased stress, mental health challenges, increased violence, and higher rates of deaths, many of which could have been prevented. While the pandemic emergency has been declared over, we are continuing to learn more about the extent of its destruction. *Corridors of Contagion* reminds readers about both the particular horrors experienced by people in cages and the continued role of the U.S. as the world's prison nation. *Sexual Assault in the U.S. Military*

Rosemarie Skaine, 2015-12-01. This book provides an in-depth analysis of sexual assault in the military from historical and contemporary perspectives, offering suggestions that could change the existing culture and approaches that will reduce or eliminate sexual assault in the armed forces. Sexual assault has been an aspect of the U.S. military historically and is today widely recognized as a significant problem with far-reaching repercussions. How does sexual assault negatively impact not only the victims themselves but also the U.S. military's strength, readiness, and morale? This book answers these questions and documents the problems with reporting and prosecuting sexual assault complaints within our armed forces. It examines the current policy and laws to identify what changes are needed and analyzes recent efforts to prevent sexual assault. Author Rosemarie Skaine introduces the subject with a historical perspective that covers women, men, gays, and lesbians and non-military personnel as the subjects of sexual assault and

provides readers with clear definitions of sexual harassment and sexual assault The chapters explain how sexual assault negatively affects the military's performance as a whole thereby serving to undermine national security and covers preventative approaches and legislation intended to change the current military culture The book also includes a bibliography tables of key figures and footnotes and endnotes that fully document the data presented *Muslim Fashion* Reina Lewis, 2015-10-15 In the shops of London's Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity Corporate Practice Series, 2004 *Queerly Canadian, Second Edition* Scott Rayter, Laine Halpern Zisman, 2022-09-14 In the second edition of this remarkable and comprehensive anthology many of Canada's leading sexuality studies scholars examine the fundamental role that sexuality has played and continues to play in the building of our nation and in our national narratives myths and anxieties about Canadian identity Thoroughly updated this new edition features twenty six new chapters on topics including Indigenous kinship Blackness masculinity disability queer resistance and sex education Covering both historical and contemporary perspectives on nation and community law and criminal justice organizing and activism health and medicine education marriage and family sport and popular culture and representation the essays also take a strong intersectional approach integrating analyses of race class and gender This interdisciplinary collection is essential for the Canadian sexuality studies classroom and for anyone interested in the mythologies and realities of queer life in Canada FEATURES Sixty percent new and expanded content with twenty six new chapters Thoroughly updated to reflect a strong emphasis on the diversity of queer experiences and identities in Canada Each chapter includes a brief introduction written for this collection by the author that provides helpful context about their work for both students and teachers *Energy Research Abstracts*, 1982 Semiannual with semiannual and annual indexes References to all scientific and technical literature coming from DOE its laboratories energy centers and contractors Includes all works deriving from DOE other related government sponsored information and foreign nonnuclear information Arranged under 39 categories e.g Biomedical sciences basic studies Biomedical sciences applied studies Health and safety and Fusion energy Entry gives bibliographical information and abstract Corporate author subject report number indexes
