BACKGROUND INFORMATION

The biosphere is the thin layer of land, air and water around the earth's surface that supports life. The abiotic, or non-living, portion of each ecosystem in the biosphere includes the flow of energy, nutrients, water, and gases and the concentrations of organic and inorganic substances in the environment. The biotic, or living, portion includes organisms based on their methods of acquiring energy: the primary producers, largely green plants; the consumers, which include all the animals; and the decomposers, which include the microorganisms that break down the remains of plants and animals into simpler components for recycling in the biosphere.

Ecological pyramids are a graphical representation in the shape of a pyramid to show the feeding relationship of groups of organisms, and the flow of energy or biomass through the different trophic levels in a given ecosystem.

QUESTION 1: Abiotic factors

Research Handbook on Intellectual Property and the Life Sciences Duncan Matthews, Herbert Zech, 2017-06-30 Intellectual property IP is a key component of the life sciences one of the most dynamic and innovative fields of technology today At the same time the relationship between IP and the life sciences raises new public policy dilemmas The Research Handbook on Intellectual Property and the Life Sciences comprises contributions by leading experts from academia and industry to provide in depth analyses of key topics including pharmaceuticals diagnostics and genes plant innovations stem cells the role of competition law and access to medicines The Research Handbook focuses on the relationship between IP and the life sciences in Europe and the United States complemented by country specific case studies on Australia Brazil China India Japan Kenya South Africa and Thailand to provide a truly international perspective *The Handbook for Market Research for Life Sciences Companies* Jean-Francois Denault, 2017-09-19 As innovation moves from the lab to the market a new research phase begins for the entrepreneur the market research phase Inspired by a new technology that can change the world critical questions need to be addressed Is there a market for my innovation Who are my clients What do they need Is my innovation filling that gap in the market Who are my competitors How are they approaching the market If these questions are unanswered entrepreneurs meet potential investors or partners with only a basic understanding of their market The objective of this book is to fill this gap It is a practical manual that gives entrepreneurs real world advice and tools to build a solid market model The book provides tips models and tools entrepreneurs can use to collect interpret and present their market and integrate it into their business plan What the entrepreneur learns in this book will help him throughout his journey After going over the market research process he will learn how to design and use a number of market research tools and how to adapt them in a life science context From building a web survey to preparing interviews to doing your own secondary research this handbook will help him gain a comprehensive understanding of how to perform his own market research activities and how to analyze his data Finally a number of frameworks such as the TAM SAM SOM as well as the KANO Model are described so that he can efficiently share what he has learned using models that simply yet effectively shares findings **The metabolic pathways and environmental controls of hydrocarbon biodegradation in marine ecosystems** Joel E. Kostka, Andreas P. Teske, Samantha B. Joye, Ian Head, 2015-05-15 Biodegradation mediated by indigenous microbial communities is the ultimate fate of the majority of oil hydrocarbon that enters the marine environment The aim of this Research Topic is to highlight recent advances in our knowledge of the pathways and controls of microbially catalyzed hydrocarbon degradation in marine ecosystems with emphasis on the response of microbial communities to the Deepwater Horizon oil spill in the Gulf of Mexico In this Research Topic we encouraged original research and reviews on the ecology of hydrocarbon degrading bacteria the rates and mechanisms of biodegradation and the bioremediation of discharged oil under situ as well as near in situ conditions **Landscapes of Collectivity in the Life Sciences** Snait B. Gissis, Ehud

Lamm, Ayelet Shavit, 2018-01-12 Broad perspective on collectivity in the life sciences from microorganisms to human consensus and the theoretical and empirical opportunities and challenges Many researchers and scholars in the life sciences have become increasingly critical of the traditional methodological focus on the individual This volume counters such methodological individualism by exploring recent and influential work in the life sciences that utilizes notions of collectivity sociality rich interactions and emergent phenomena as essential explanatory tools to handle numerous persistent scientific questions in the life sciences The contributors consider case studies of collectivity that range from microorganisms to human consensus discussing theoretical and empirical challenges and the innovative methods and solutions scientists have devised The contributors offer historical philosophical and biological perspectives on collectivity and describe collective phenomena seen in insects the immune system communication and human collectivity with examples ranging from cooperative transport in the longhorn crazy ant to the evolution of autobiographical memory They examine ways of explaining collectivity including case studies and modeling approaches and explore collectivity's explanatory power They present a comprehensive look at a specific case of collectivity the Holobiont notion the idea of a multi species collective a host and diverse microorganisms and the hologenome theory which posits that the holobiont and its hologenome are a unit of adaptation The volume concludes with reflections on the work of the late physicist Eshel Ben Jacob pioneer in the study of collective phenomena in living systems Contributors Oren Bader John Beatty Dinah R Davison Daniel Dor Ofer Feinerman Raghavendra Gadagkar Scott F Gilbert Snait B Gissis Deborah M Gordon James Griesemer Zachariah I Grochau Wright Erik R Hanschen Eva Jablonka Mohit Kumar Jolly Anat Kolombus Ehud Lamm Herbert Levine Arnon Levy Xue Fei Li Elisabeth A Lloyd Yael Lubin Eva Maria Luef Ehud Meron Richard E Michod Samir Okasha Simone Pika Joan Roughgarden Eugene Rosenberg Ayelet Shavit Yael Silver Alfred I Tauber Ilana Zilber Rosenberg

White Paper on Science and Technology, 2015 **Understanding West Africa's Ebola Epidemic** Ibrahim Abdullah, Ismail Rashid, 2017-10-15 From 2013 to 2015 over 11 000 people across West Africa lost their lives to the deadliest outbreak of the Ebola virus in history Crucially this epidemic marked the first time the virus was able to spread beyond rural areas to major cities overturning conventional assumptions about its epidemiology With backgrounds ranging from development to disease control the contributors to this volume some of them based in countries affected by the Ebola epidemic consider the underlying factors that shaped this unprecedented outbreak While championing the heroic efforts of local communities and aid workers in halting the spread of the disease the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved which hampered the efforts to contain the epidemic Alarming they show that little has been learned from these events with health provision remaining underfunded and poorly equipped to deal with future outbreaks Such issues they argue reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world

Intellectual Property Issues in Life Sciences Chetan Keswani, Cristina Possas, 2024-11-15 Intellectual Property Issues in Life Sciences Disputes and Controversies highlights emerging legal social

and regulatory issues pertaining to various areas of life sciences Patents occupy a prominent position in the innovation systems in the life sciences but to what extent they support or hinder innovation is widely disputed Life science is a broad subject including agriculture ecology microbiology plant and animal sciences health and diseases biotechnology etc However despite the broad applications of biotechnology and molecular biology techniques profits on investments are surprisingly low Thus it is vitally important for universities public research organizations and private enterprises to protect their innovations There are vast differences of opinion on patentability of living organisms which are largely barred from patent protection However mind sets are rapidly shifting and IP issues in life sciences are receiving increasing attention To compete with progressive bio based economies the developing countries are amending their IP laws to encourage investment An effort has been made to avoid considering policy in isolation but rather to emphasize the interplay between the policy mix the wider institutional setting market forces and system organization solutions Both empirical and conceptual chapters are included to bring them together and to yield facts and interpretations for the readers This book presents expert opinions by frontier academicians researchers and attorneys on the recent challenges in the rapidly evolving life science industry The present book offers comprehensive knowledge on the contemporary issues in life sciences to a wide range of audiences including students scholars researchers legal practitioners policymakers and others interested in emerging intellectual property issues Features The only compilation available on the contemporary intellectual property issues in life sciences in the post COVID era Focuses on the commercial regulatory bioethical and socio legal implications of patents in life sciences Describes an integrated approach for sustained innovations in various areas of life sciences Discusses the recent IP controversies in a pan global context Presents viewpoints to front line practitioners viz attorneys researchers etc

Food Security and the Modernisation Pathway in China Marie-Hélène Schwoob,2018-01-26 This book aims at providing students experts and practitioners with a detailed overview of agricultural and food security issues in China analyzed through the lenses of a multidisciplinary approach that enables to fully grasp the current socio political challenges and lock ins of agricultural transformation towards more sustainable practices Confronted to a running decrease and degradation of its resources and rapidly evolving food habits China became a net importer of food in 2004 and its agricultural balance has since become heavier every day Beyond providing a comprehensive overview of these stakes this book also presents consistent and original first hand research material collected by the author during months of fieldwork in China in the countryside and from various economic and political circles Conclusions drawn from this often difficult to access fieldwork shed light on the whole galaxy of public and private stakeholders taking part in agricultural modernization in China on their interests and on the patterns of power that underlie the development and implementation of agricultural policies

The Horn Engaging the Gulf Aleksis Ylönen,2023-12-28 This book discusses theoretical perspectives of analyzing the relations between the states and non state actors in the Horn of Africa and their counterparts in the Persian Gulf and the Middle East Crucially these relations are

examined primarily from the perspective of the diplomatic economic and strategic agency of the African states and societal actors Here domestic political dynamics and local power play a significant role Aleksis Yl nen provides a historically informed investigation of recent relations that involve the Gulf States and T rkiye s resurgent interest in the Horn Africa The analysis focuses on the post Arab Spring period following the Iran nuclear deal and the war in Yemen Featuring case studies from Ethiopia Somalia and Eritrea which highlight engagements of the Horn state and societal actors primarily with the Gulf States and T rkiye the study provides an empirical analysis of the interactions and connections between the two regions
