

- c. After setting the desired AUTO-OFF time, press the MENU button four times to scroll through the remaining programming options and exit the programming mode. 'AUTO-OFF SET' will now be displayed to indicate that it has been set.

- d. To cancel the AUTO-OFF feature, press the MENU button twice to reach the AUTO-OFF programming mode. Press and release the blue Cup button under the blinking H to advance one hour at a time until OFF is displayed.

- b. Press or hold the blue Cup button under the H to scroll through the hours to your desired ON time hour.
- c. Press or hold the blue Travel Mug button under the M to scroll through the minutes to your desired ON time minutes.
- d. After setting the desired time, press the Menu Button to save the On Time and move to the SET OFF TIME.

- e. If you want to set an OFF time, repeat the procedure above in steps b & c to set your desired OFF time.
- f. To complete the process, press the Menu Button two more times to exit the programming mode. The Control Center will now indicate the options you have set.
- g. The AUTO ON time and AUTO OFF time functions operate independently from one another. To cancel either set function, follow the steps above and use the H and M buttons to advance to 12:00 AM. When you reach 12:00 AM, the Control Center will display 'OFF' and the function will be disabled.

EXAMPLE: If you chose to set the On Time at 6:15 AM and the Off Time for 10:00 PM, then the Brewer will be 'OFF' and maintain hot water in the tank during that time so that it is always ready for you to brew. If you wanted to brew outside this window, simply press the Power Button and you can brew as soon as the water is heated and the 'READY TO BREW' indicator is displayed on the LCD Control Center.

3. Program your Brewer for a specific Auto On/Off Time.

NOTE: To use this programming feature, the clock must be set to the correct time. The clock will not be displayed unless the time is set.

- a. After setting the correct time (required), press the Menu Button three times to program the Auto On time feature. The LCD Control Center will show the programming options with a small arrow next to 'SET ON TIME'.

NOTE: The AUTO OFF Timer and the AUTO ON/OFF Time programming options operate independently, but can also be programmed to work together. For example, you can set the AUTO ON Time function to turn on at 7:00 AM and then set the AUTO OFF Timer function to turn off the Brewer two hours after the last brew.

Programming Brew Temperature (187° - 192° F)

The Brewer brews coffee at a preset temperature of 192 degrees. You can adjust this temperature down by 5 degrees if you prefer a cooler cup of coffee or tea. Simply follow the instructions below.

1. Press the Menu Button on the LCD Control Center five times to program the Brew Temperature feature.
2. The LCD Control Center will now display the programming options with a small arrow next to 'SET BREW TEMP'. Also, the temperature 192 (initial setting) will be displayed at the bottom of the LCD Control Center to indicate the current temperature setting.

3. A minus sign will appear over the Cup button and/or a plus sign over the Travel Mug button. Use these buttons to raise or lower the temperature one degree at a time.

4. Once you have reached your desired brew temperature, press the MENU button once to exit the programming mode. 'BREW TEMP SET' will be displayed in the LCD Control Center if you have changed it from 192°.
5. To change the brew temperature again, repeat steps 1 through 3 to change the temperature up and/or down, remembering that the temperature can only be between 187 degrees and 192 degrees.
