La Construction Identitaire En Iran:

The Oxford Handbook of Music Revival Caroline Bithell, Juniper Hill, 2014 Why is music from the past significant today and how has it been transformed to suit new values and agendas This volume examines the globally recurrent cultural processes of revival resurgence restoration and renewal Interdisciplinary perspectives shed new light on authenticity recontextualization transmission institutionalization globalization and post revival legacies This Thing Called Music Victoria Lindsay Levine, Philip V. Bohlman, 2015-05-21 The most fundamental subject of music scholarship provides the common focus of this volume of essays music itself For the distinguished scholars from the field of musicology and related areas of the humanities and social sciences the search for music itself in its vastly complex and diverse forms throughout the world characterizes the lifetime of reflection and writing by Bruno Nettl the leading ethnomusicologist of the past generation This Thing Called Music Essays in Honor of Bruno Nettl salutes not only a great scholar and beloved teacher but also a thinker whose search for the meaning and ontology of music has exerted a global influence Editors Victoria Lindsay Levine and Philip V Bohlman have gathered essays that represent the many dimensions of musical meaning addressing some of the most critically important areas of music scholarship today The social formations of musical communities play counterpoint to analytical studies investigations into musical change and survival connect ethnography to history offering a collection of essays that can serve as an invaluable resource for the intellectual history of ethnomusicology Each chapter explores music and its meanings in specific geographic areas North and South America Europe Asia and the Middle East crossing the boundaries of genre repertory and style to provide insight into the aesthetic zones of contact between and among the folk classical and popular musics of the world Readers from all disciplines of music scholarship will find in this collection a proper companion in an era of globalization when the connections that draw musicians and musical practices together are more sweeping than ever Chapters offer models for detailed analysis of specific musical practices while at the same time they make possible new methods of comparative study in the twenty first century together posing a challenge crucial to all musicians and scholars in search of this thing called music **La construction identitaire en Iran** Alireza Manafzadeh, 2010-01-01 Depuis le début du siècle dernier le poids géostratégique de l'Iran a toujours pesé sur l'échiquier international La révolution islamique l'a précipité d'une manière spectaculaire sur la scène politique du monde Il couve de graves crises qu'elles soient nationales ou internationales que les travaux explorant l'image que les Iraniens se font d'eux-mêmes pourraient permettre de pronostiquer Cette étude propose de connaître les soubassements idéologiques des comportements politiques voire culturels des Iraniens Ethnicité et nationalisme en Iran. La cause azerbaïdjanaise RIAUX Gilles, 2012-02-17 La quête de puissance de l'Iran est souvent expliquée par l'unité de la nation iranienne gage de ses ambitions stratégiques au Moyen Orient Pourtant l'Iran reste un pays marqué par une profonde diversité ethnique où les Persans ne représentent qu'une majorité relative Une telle diversité oblige repenser la question de l'ethnicité et du nationalisme en Iran En

raison de leur poids démographique et de leur rôle politique l'exemple des Azeris rend compte de la participation des groupes ethniques aux institutions statiques comme aux mouvements contestataires Loin des lieux communs sur les conflits ethniques ce livre montre comment la cause azerbaïdjanaise merge en contrepoint de la construction de l'Etat iranien et en lien avec les dynamiques transnationales présentes au Moyen Orient A travers ses principales figures la cause azerbaïdjanaise apparaît comme une modalité de contestation de l'ordre politique imposé par la dynastie des Pahlavis 1925-1979 La République islamique tout en reconnaissant la diversité culturelle du pays doit faire face aux demandes de reconnaissance des principaux groupes ethniques Après la mort de l'ayatollah Khomeyni la politisation des enjeux culturels et la radicalisation des revendications azerbaïdjanaises concourent faire de la question ethnique un enjeu majeur pour la République islamique Fondé sur une enquête de terrain approfondie l'ouvrage contribue à la compréhension de la question ethnique en Iran Sa problématique rigoureuse et originale revêt une dimension comparative qui renouvelle les travaux sur les usages de l'ethnicité et les mobilisations identitaires dans les contextes non démocratiques Docteur de l'Université Paris 8 Gilles Riaux est chargé d'étude à l'Institut de Recherche stratégique de l'Ecole militaire et chercheur associé au CNRS Monde iranien et indien UMR 7528 Ils en ont parlé Une recension sur le site REMMM de Bernard Hourcade

Les Emirats du Golfe, au défi de l'ouverture Alexis Normand, 2011-11-01 Qui est-ce qui croit que les Emirats puissent devenir des modèles de développement au Moyen Orient Le problème ne suffit pas à expliquer leur transformation économique du désert en Cités-Etats ultramodernes A l'inverse de leurs voisins ces Etats ont préféré la tolérance au repli identitaire la modernité aux seules traditions l'économie de marché l'islamisme Ces choix ne vont pas sans heurts Comment s'ouvrir sans perdre son identité Comment adapter la structure traditionnelle du pouvoir à l'heure du printemps arabe Cet ouvrage de synthèse apporte des réponses claires à ces grandes questions
